C. Elkind, Gregory Landini, 2018-12-11 This book offers a comprehensive critical survey of issues of historical interpretation and evaluation in Bertrand Russell s 1918 logical atomism lectures and logical atomism itself These

lectures record the culmination of Russell's thought in response to discussions with Wittgenstein on the nature of judgement and philosophy of logic and with Moore and other philosophical realists about epistemology and ontological atomism and to Whitehead and Russell's novel extension of revolutionary nineteenth century work in mathematics and logic Russell's logical atomism lectures have had a lasting impact on analytic philosophy and on Russell's contemporaries including Carnap Ramsey Stebbing and Wittgenstein Comprised of 14 original essays this book will demonstrate how the direct and indirect influence of these lectures thus runs deep and wide T.S. Eliot and the Philosophy of Criticism Richard Shusterman,1988 The Philosopher's Index: Subject index ,1980 Includes original philosophy books published outside of the United States in English between 1940 and 1978 and articles published in philosophy journals between 1940 and 1966 **The Philosophy of Bertrand Russell** Paul Arthur Schilpp,1989 *The Listener* ,1976 *Philosophical Questions Series* ,1975 *Self-deception and the Common Life* Lloyd H. Steffen,1986 Self Deception and the Common Life investigates the topic of self deception from three points of view philosophical psychology ethics and theology Empirical evidence and an ordinary language analysis support the case that the linguistic expression self deception is literally meaningful and that the language of the common life can be trusted After critically analyzing the cognition translation and action accounts along with the contributions of Freud and Sartre Steffen proposes a new synthetic emotional perception account one that avoids paradox Giving attention to relevant moral issues he argues that self deception is not immoral but represents a peculiar form of akrasia Finally because theologians employ self deception to describe the cognitive component of sin Steffen considers the logic of theological self deception His study seeks an intimate acquaintance with self deception and exemplifies a method of analysis relevant to constructive theological inquiry *Academic American Encyclopedia* ,1989 **Books in Print** ,1982 *Nebraska Symposium on Motivation* ,1976 Conceptual Foundations of Psychology William J. Arnold,1976 **Paperbacks in Print** ,1975
