Philosophical Fragments:

Philosophical Fragments Søren Kierkegaard, 2017-11-21 *Philosophical Fragments* is a Christian philosophical work written by Danish philosopher Søren Kierkegaard in 1844. It was the first of three works written under the pseudonym Johannes Climacus; the other two were *De omnibus dubitandum est* (1841) and *Concluding Unscientific Postscript to Philosophical Fragments* (1846). *Philosophical Fragments* Søren Kierkegaard, 1962 *Philosophical Fragments, or, a Fragment of Philosophy* Søren Kierkegaard, 2007 *Philosophical Fragments, Johannes Climacus* Søren Kierkegaard, 1985 The Danish philosopher's influential work outlining the distinction between Socratic irony and the leap of faith required for Christian belief argues that freedom, which cannot be understood or proved, is the necessary condition for Christianity. Also included is the unfinished narrative *Johannes Climacus*, in which a man sets out to doubt everything, a critique of Cartesian and Hegelian approaches to philosophy. ***Philosophical Fragments and Johannes Climacus*** Robert L. Perkins, 1994 For the first time in English, the world community of scholars is systematically assembling and presenting the results of recent research in the vast literature of Søren Kierkegaard. Based on the definitive English edition of Kierkegaard's works by Princeton University Press, this series of commentaries addresses all the published texts of the influential Danish philosopher and theologian. *Philosophical Fragments* Friedrich von Schlegel, 1991 *Philosophical Fragments* was first published in 1991. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. At a time when the function of criticism is again coming under close skeptical scrutiny, Schlegel's unorthodox, highly original mind, as revealed in these foundational fragments, provides the critical framework for reflecting on contemporary experimental texts. *Philosophical Fragments Or a Fragment of Philosophy* Johannes Climacus, 1936 ***Philosophical Fragments, or a Fragment of Philosophy/Johannes Climacus, or De omnibus dubitandum est. (Two books in one volume)*** Søren Kierkegaard, 2013-04-21 This volume contains a new translation with a historical introduction by the translators of two works written under the pseudonym Johannes Climacus. Through Climacus, Kierkegaard contrasts the paradoxes of Christianity with Greek and modern philosophical thinking. In *Philosophical Fragments*, he begins with Greek Platonic philosophy, exploring the implications of venturing beyond the Socratic understanding of truth acquired through recollection to the Christian experience of acquiring truth through grace. Published in 1844 and not originally planned to appear under the pseudonym Climacus, the book varies in tone and substance from the other works so attributed but it is dialectically related to them as well as to the other pseudonymous writings. The central issue of Johannes Climacus is doubt. Probably written between November 1842 and April 1843 but unfinished and published only posthumously, this book was described by Kierkegaard as an attack on modern speculative philosophy by means of the melancholy irony which did not consist in any single utterance on the part of Johannes Climacus but in his whole life. Johannes does what we are told to do; he actually doubts everything; he suffers

through all the pain of doing that becomes cunning almost acquires a bad conscience When he has gone as far in that direction as he can go and wants to come back he cannot do so Now he despairs his life is wasted his youth is spent in these deliberations Life does not acquire any meaning for him and all this is the fault of philosophy A note by Kierkegaard suggests how he might have finished the work Doubt is conquered not by the system but by faith just as it is faith that has brought doubt into the world **Philosophical Fragments, Or A Fragment of Philosophy** Søren Kierkegaard, 1969

Passionate Reason C. Stephen Evans, 1992-11-22 Johannes Climacus Søren Kierkegaard's pseudonymous author of Philosophical Fragments invents a religion suspiciously resembling Christianity as an alternative to the assumption that humans possess the Truth within themselves Through this literary device Climacus raises in a fresh and audacious way age old questions about the relation of Christian faith to human reason Is the idea of a human incarnation of God logically coherent Is religious faith the product of a voluntary choice In a comprehensive discussion of one of Kierkegaard's most important books C. Stephen Evans elucidates Kierkegaard's novel explanation that the tension between faith and reason must be understood as a consequence of the passionate character of reason itself Passionate Reason situates Kierkegaard's philosophy in the context of postmodern religious thought providing a contemporary reading of Fragments as a challenge to both the modern Enlightenment critique of reason and the postmodern abandonment of truth

Concluding Unscientific Postscript to Philosophical Fragments Søren Kierkegaard, 2013-04-21 In Philosophical Fragments the pseudonymous author Johannes Climacus explored the question What is required in order to go beyond Socratic recollection of eternal ideas already possessed by the learner Written as an afterword to this work Concluding Unscientific Postscript is on one level a philosophical jest yet on another it is Climacus's characterization of the subjective thinker's relation to the truth of Christianity At once ironic humorous and polemical this work takes on the unscientific form of a mimical pathological dialectical compilation of ideas Whereas the movement in the earlier pseudonymous writings is away

from the aesthetic the movement in Postscript is away from speculative thought Kierkegaard intended Postscript to be his concluding work as an author The subsequent second authorship after The Corsair Affair made Postscript the turning point in the entire authorship Part One of the text volume examines the truth of Christianity as an objective issue Part Two the subjective issue of what is involved for the individual in becoming a Christian and the volume ends with an addendum in which Kierkegaard acknowledges and explains his relation to the pseudonymous authors and their writings The second volume contains the scholarly apparatus including a key to references and selected entries from Kierkegaard s journals and papers
