their own culture usually erroneously to the Egyptians With that said some minor elements of ancient Egyptian culture were indeed passed on to later civilizations Egyptian statuary appears to have had an initial influence on the Greek version and the ancient Egyptian language continued long after the pharaonic period in the form of the Coptic language Although the Egyptians may not have passed their civilization directly on to later peoples the key elements that comprised Egyptian civilization their religion early ideas of state and art and architecture can be seen in other pre modern civilizations For instance civilizations far separated in time and space such as China and Mesoamerica possessed key elements that were similar to those found in ancient Egypt Indeed since Egyptian civilization represented some fundamental human concepts a study of pharaonic culture can be useful when trying to understand many other pre modern cultures Thus anyone who reads about ancient Egyptian civilization in this regard is best served by looking at its earliest phases the Early Dynastic Period and the Old Kingdom By examining the Old Kingdom and the period immediately preceding it attributes considered quintessentially Egyptian in later periods will become clearer
