Introduction to Religion Gregory G. Bolich, Byron R. Care, Garrett Kenney (C.), 1988

Philosophischer Literaturanzeiger, 1991

The Very Idea of Radical Hermeneutics Roy Martinez, 1997 These essays focus on and explore the idea of radicalizing hermeneutics first proposed in John D Caputo's study *Radical Hermeneutics* They address the confrontation of hermeneutics and postmodernism and include contributors from the fields of philosophy literature and science

Interpreting Religion George Alfred James, 1995 The nature of what has been termed the phenomenology of religion has been the subject of controversy and confusion within the academic study of religion since the early 1950s Here George Alfred James attempts to clarify the subject through an exploration of the self-understanding of three of its key exponents Pierre-Denis Chantepie de la Saussaye W Brede Kristensen and Gerardus van der Leeuw Though the three are widely acknowledged to have had a decisive impact on the phenomenology of religion they are not widely studied James deals with each of the three in turn and shows how each saw his efforts as at once a historical a theological and anti-reductive According to James this family of phenomenological approaches can contribute a wealth of insight to the study of religion today The author offers a groundbreaking challenge to the received image of the phenomenology of religion as an approach of merely historical interest He shows that phenomenology of religion is not a development or application of the philosophical method initiated by Edmund Husserl but an approach to religion that has its own claim to authenticity as a discipline distinct from theology from the history of religions and from contemporary social-scientific approaches to religion Phenomenology of religion is revealed to be a radical departure from contemporary efforts to understand the religious dimension of human nature and culture *Interpreting Religion* reveals how the exponents of the phenomenology of religion were concerned with avoiding doctrinaire interpretations on the one hand and reductionism on the other and explains their varying strategies for achieving this goal It also shows how successive efforts toward a phenomenological approach to religion have addressed the weaknesses and built upon the insights of earlier efforts of this nature The book advocates a reexamination of the phenomenology of religion in the light of recent developments in post-modern theology literary criticism and philosophy George Alfred James lives in Denton Texas where he is associate professor of philosophy and religion studies at the University of North Texas He has contributed

articles to a variety of publications including *The Journal of Religion* and *The Encyclopedia of Religion* *Theologie und Philosophie*, 1995 Contains critical reviews and bibliographies Quellenlexikon zur deutschen Literaturgeschichte Heiner Schmidt, Günter Albrecht, 1994 Phenomenological Inquiry, 1991 *Theologische Realenzyklopädie*, 1998 Reading Jean-Luc Marion Christina M. Gschwandtner, 2007 The work of French philosopher and theologian Jean Luc Marion has been recognized as among the most suggestive and productive in the philosophy of religion today In *Reading Marion* Christina M Gschwandtner provides the first comprehensive introduction to Marion's large and conceptually dense corpus Gschwandtner gives particular attention to Marion's early work on Descartes and follows thematic threads through to his most recent publications on charity and eroticism She explores in detail three prominent topics in Marion's thought the desire to overcome metaphysics his reflections on the divine and his reconsideration of the relation of the self to the other in love Gschwandtner reveals Marion's thought as a unified whole and provides context for his theological and phenomenological writings Readers at all levels will find insight into the work of one of the world's most provocative thinkers *Kierkegaard and the Art of Irony* Roy Martinez, 2001 No Marketing Blurb *Theology and the Interhuman* Robert R. Williams, 1995 The essays in this volume are intended to recognize honor and respond to the multifaceted thought of Edward Farley The title for this volume is meant to articulate both a central theme developed in Edward Farley's constructive theology and a broad connection between theology and other concerns reflective ontology and deconstruction intersubjectivity ethics and social political criticism of advanced industrial society The different voices and levels of concern of the contributors reflect the diverse and wide ranging character of Farley's work In his preface editor Robert Williams notes that Farley's constructive theology was inaugurated in his theological prolegomena *Ecclesial Man* 1975 that appropriated not only Husserl's phenomenological method for theology but also Husserl's concept of the life world *Lebenswelt* The life world as the concrete historical a priori underlying theoretical thought is an interhuman domain that is also the locus of faith and ethics Hence the title of this book *Theology and the Interhuman* *Theology and the Interhuman* then represents more than a collection of essays in honor of an influential scholar and teacher While the various contributions concentrate on historical philosophical theology theological education and various areas of practical theology they do so in a way that continues and expands conversations that have been and will be going on for some time

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Language of Dissent Daniel Speed Thompson, 2003 Written in the context of a decades long struggle between progressive theologians and the magisterium a struggle symptomatic of the current and wider crisis in the Roman Catholic Church *The Language of Dissent* uses the theology of Edward Schillebeeckx as it has evolved and developed to analyze fundamental questions of authority and dissent in the church Daniel Speed Thompson's approach to the issue of authority is unique in that he reflects not only on the character of the church but also on the very nature of salvation revelation and theological language After briefly describing the current crisis of authority in the Catholic Church Thompson

describes the conceptual framework that shapes Schillebeeckx's understanding of knowledge, language, action, and authority. In particular, Thompson demonstrates the complex interrelationship between experience, praxis, and language in Schillebeeckx's three models of epistemology. With these foundations in place, Thompson offers a synthesis of Schillebeeckx's writings on ecclesiology and the apostolicity of the church. Thompson argues that Schillebeeckx's writings in these areas, as well as in epistemology and fundamental theology, not only allow for theological dissent but actually demand their existence within a healthy church. Thompson concludes by suggesting that the consistent application of Schillebeeckx's principles argue for a democratization of the Roman Catholic Church. Incorporating previously untranslated and new material, as well as a preface by Schillebeeckx, *The Language of Dissent* makes a substantial contribution to contemporary Catholic theology.
