Philanthropy And The Hospitals Of London:

Charity and the London Hospitals, 1850-1898 Keir Waddington, 2000 Drawing on a comparative study of hospital records Charity and the London Hospitals investigates how and why Victorians contributed in order to show that benevolence was rarely amenable to a single form or reason Whilst charity remained central to the hospitals raison d'être philanthropy's contribution was modified at a financial and administrative level as hospitals shifted from being philanthropic to medical institutions Why this process occurred and the impact of professionalisation and scientific medicine are assessed BOOK

JACKET Charity, Self-Interest And Welfare In Britain Martin Daunt, 2005-10-26 First published in 1996 These essays present a statement on the long term development of welfare policy in Britain Relating to current issues such as the cost of pensions this work examines provisions for the poor infirm and aged over four centuries of British history *History and Philanthropy* David Cannadine, Jill Pellew, 2008 *Medicine and Charity Before the Welfare State* Jonathan Barry, Colin Jones, 2002-11-01 What have been the roles of charities and the state in supporting medical provision These are issues of major relevance as the assumptions and practices of the welfare state are increasingly thrown into doubt This title offers a broad perspective on the relationship between charity and medicine in Western Europe up to the advent of welfare states in the 20th century Through detailed case studies the authors highlight significant differences between Britain France Italy and Germany and offer a critical vocabulary for grasping the issues raised This volume reflects recent developments relating to the role of charity in medicine particularly the revival of interest in the place of voluntary provision in contemporary social policy It emphasizes the changing balance of care and cure as the aim of medical charity and shows how economic and political factors influenced the various forms of charity **Burdett's Hospitals and Charities** Sir Henry C. Burdett, 1921

Philanthropy and the Hospitals of London F. K. Prochaska, 1992 British hospitals and their administration have changed dramatically since the nineteenth century when the provision of medical care depended very heavily upon philanthropic bodies The King's Fund was the leading charitable institution for the defence and development of London's voluntary hospitals before the creation of the National Health Service Since 1948 it has worked alongside the NHS and has sought to promote good practice and innovation in health care through grants training and a range of other services Dr Prochaska's readable and scholarly study places the King's Fund in the wider context of the history of philanthropy and social provision It provides an illuminating analysis of the evolution of the relationship between the voluntary and public sectors in the twentieth century and points to the continuing importance of voluntary organizations to the nation's health and welfare
