Angelis,2017-04-10 Die Achse Berlin Rom war mehr als ein politisch militärisches Projekt sie erstreckte sich auf alle Bereiche der Gesellschaft Wissenschaft und Kunst machten keine Ausnahme Auch hier entstanden intensive Beziehungen deren Wurzeln bis in die 1920er Jahre zurückreichten Zahlreiche Intellektuelle beteiligten sich an dieser akademischen Achse zwischen Italien und Deutschland unter ihnen auch viele deutsche Juden die in Italien eine Zuflucht auf Widerruf Klaus Voigt gefunden hatten ehe sie nach der Einführung der Rassengesetze auch dort unter Druck gerieten Namhafte Experten aus fünf Ländern analysieren die Vielfalt dieser lange ignorierten Netzwerke die freilich nicht nur von Kooperation und Transfer geprägt waren Genauso oft standen sie im Zeichen von Abgrenzung und latenter Konkurrenz die auch das Achsen Bildnis insgesamt bestimmten Die Botschaft dieses innovativen Ansatzes ist klar Für eine interdisziplinär informierte

Geschichtswissenschaft gibt es noch viel zu tun **Unfolding Consciousness** Edi Bilimoria,2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perennial wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity This work has over 2000 references and is supported by copious tables and diagrams plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed Key areas The scientific and esoteric worldviews compared and contrasted The ultimate promise of science The soft and hard problems of consciousness How external input to the physical senses results in an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of

What if Jesus were not a supernatural being conceived by a virgin but a real human being who had experienced the awakening of consciousness known as enlightenment in the East This extraordinary line by line commentary on some of the best known Gospels from the New Testament tests the hypothesis that Jesus was a mystic not a miracle worker And convincingly makes the case that the stories of his life were never meant to be a factual record of history but rather are teaching parables designed to provide ongoing spiritual guidance for generations to come I will speak on Christ but not on Christianity Christianity has nothing to do with Christ In fact Christianity is anti Christ just as Buddhism is anti Buddha and Jainism anti Mahavir Christ has something in him which cannot be organized The very nature of it is rebellion and a rebellion cannot be organized The moment you organize it you kill it Then the dead corpse remains You can worship it but you cannot be transformed by it You can carry the load for centuries and centuries but it will only burden you it will not liberate you That's why from the beginning let it be absolutely clear I am all for Christ but not even a small part of me is for Christianity If you want Christ you have to go beyond Christianity If you cling too much to Christianity you will not be able to understand Christ Christ is beyond all churches **On Causality** Joseph Geyser,2023-09-13

Translation of Das Prinzip vom zureichenden Grunde 1929 as The Principle of Sufficient Ground and Das Gesetz der Ursache 1933 as The Law of Cause Geyser's work is typical of early twentieth century German Neo Scholasticism as we discern in this excerpt from his 1929 Introduction What I find lacking in myself is that I have not been the framer of a great system of philosophy born from the Catholic idea Despite all my skirmishes with modern philosophy I have remained fundamentally hooked on Neo Thomism and I appear sometimes more intent on Neo Thomistic apologetics than on the construction of a system derived from factual problems themselves In that respect it is well established that I take up so much space in my books with polemics against the views of others that I thereby concede the preeminence of these others Only systems can overcome systems As a non systematic Catholic Aristotelian philosopher Geyser welcomed dialogue with not only his contemporary fellow Neo Scholastics such as Pedro Descoqs Theodor Droege Lorenz Fuetscher Reginald Garrigou Lagrange Joseph Gredt Adolf Heuser Bernhard Jansen Caspar Nink Franz Sawicki Artur Schneider Franz Maria Sladeczek and Heinrich Straubinger who are present here in abundance but also noteworthy predecessors such as Aquinas Kant Hume and Wolff In his 1933 Foreword he offers this self assessment I am prepared for criticism Criticism is a useful thing if it is careful to pursue knowledge impartially Criticism must be rejected if it presumes to have said something great or if it reproaches a philosopher for a philosophy which just takes part in the fate of all true life namely existing within relentless movement and development Certain and fully known truth is in philosophical questions of every sort a star shining very far away **Philosophia**

perennis Wilhelm Schmidt-Biggemann, 2005-03-21 The study features the five most important and most efficacious themes of Western spirituality in their ancient historical origins and in their unfolding up to early modernity Divine names Microkosmos Makrokosmos theories of creation the idea of spiritual spaces and the concepts of eschatological history
