Philosophical Analysis In Latin America:

Philosophical Analysis in Latin America J.J. Gracia, E. Rabossi, Enriq Villanueva, Marcelo Dascal, 1984-05-31 Historians of Latin American philosophy have paid relatively little attention to the development of philosophical analysis in Latin America There are two reasons for this neglect First they have been primarily concerned with the formative period of philosophical development in particular with the so called founders of Latin American philosophy And second philosophical analysis did not become a noticeable philosophical trend in Latin America until recent years True a number of Latin American philosophers took notice of Moore Russell the members of the Vienna Circle and other important figures in the analytic movement quite early But these were isolated instances that lacked the sustained effort and broad base indispensable to make a serious impact in the development of Latin American philosophy That has changed now There are not only good numbers of philosophers who work within the analytic tradition but also some journals and institutes dedicated to the analytic mode of philosophizing It is therefore most appropriate to publish a collection of articles which would introduce the reader of philosophy to the most representative analytic material produced so far in Latin America Indeed it is not only appropriate but also necessary since most of the published analytic literature to date is scattered in various journals sometimes of difficult access Moreover not all that has been published is representative of the best already produced and of the potential that the movement has in Latin America
