TikTok Algorithms 2025 Jordan Smith, 2022-05-05 TikTok is a highly creative platform and it definitely rewards those who often create and post. It's ideal two to three times a day if you really want to gain popularity on TikTok; you won't cut it once a week. So in just two months I've gone from zero to 10K followers. Sharn Rayment, multimedia freelance producer. You definitely have to embrace and commit to using TikTok to the fullest extent possible to create a content backlog for the for you page. As for younger and older generations, TikTok has democratized creativity and social media. The app has the highest rate of follower engagement across 100,000 user profiles sampled in an Influencer Marketing Hub online research project. If marketers merely consider it as a dancing device and don't change their approach to include TikTok content, they'll be really bitter in a couple of years. Watching Instagram influencers repurpose Instagram content to TikTok at the start of lockdown shows the polished advertising on this site doesn't wash. We always noticed when Instagram stories came up there was a trend for shorter, more digestible content. Yet TikTok proves that users can return for more when you get the form of content right. According to official figures from TikTok, its customers remain faithful and are starting to return to the app. In fact, 90% of users use the app several times a day. Overall, TikTok is asking us to reconsider the way our content is strategized. I do hope these tips give you some ideas on how to handle TikTok and the way you prepare and create your content in general.

In this book, world-renowned brand expert Ana Andjelic shows how modern brand strategy needs to be redefined as the strategy of cultural influence: how brands today influence culture, how brands should address audiences, and how the new approach to cultural hitmaking works organizationally and operationally. A cultural hit is an idea, content, or entertainment that a large number of consumers pay

attention to share and talk about Once cultural hits become market hits by lifting brand popularity or driving product sales they have a strong financial return for a company Brands are motivated to start producing as many cultural hits as possible and these new formats replace traditional brand marketing strategies In the book Ana Andjelic clearly articulates the complexity of this modern brand building and provides a set of practical examples and tools that can be used by brand strategists to produce a cultural hit
