Power And Powerlessness Quiescence And Rebellion In An Appalachian Valley:

Power and Powerlessness John Gaventa, 1982 Explains to outsiders the conflicts between the financial interests of the coal and land companies and the moral rights of the vulnerable mountaineers *Introduction to the Policy Process* Birkland, 2015-05-18 Thoroughly revised reorganized updated and expanded this widely used text sets the balance and fills the gap between theory and practice in public policy studies In a clear conversational style the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction A newly added chapter surveys the social economic and demographic trends that are transforming the policy environment

Essays on Evolutions in the Study of Political Power Giulio M. Gallarotti, 2021-11-24 This book deals with the most important developments in the study of political power over the last four decades From the writings of the great Greek philosophers of antiquity to the present the idea of power has been the major subject in the study of politics Indeed some would say it defines the very field of politics itself as a social science Penned by the leading scholars in the field this collection gives a broad overview of the most important issues in the study of political power tracing the evolution of scholarly thinking about them and in doing so revealing crucial innovations therein This will be a major contribution in the understanding of the concepts and practices of how power manifests itself across social and political contexts This book will be of great interest to scholars students and individuals who wish to understand the very foundations of social and political life The chapters in this book were originally published as a special issue of the Journal of Political Power volume 14 issue 1 2021 Authoritarian Populism and the Rural World Ian Scoones, Marc Edelman, Saturnino M. Borras Jr., Lyda Fernanda Forero, Ruth Hall, Wendy Wolford, Ben White, 2021-06-29 The rise of authoritarian nationalist forms of populism and the implications for rural actors and settings is one of the most crucial foci for critical agrarian studies today with many consequences for political action Authoritarian Populism and the Rural World reflects on the rural origins and consequences of the emergence of authoritarian and populist leaders across the world as well as on the rise of multi class mobilisation and resistance alongside wider counter movements and alternative practices which together confront authoritarianism and nationalist populism The book includes 20 chapters written by contributors to the Emancipatory Rural Politics Initiative ERPI a global network of academics and activists committed to both reflective analysis and political engagement Debates about populism nationalism authoritarianism and more have exploded recently but relatively little of this has focused on the rural dimensions Yet wherever one looks the rural aspects are key not just in electoral calculus but in understanding underlying drivers of authoritarianism and populism and potential counter movements to these Whether because of land grabs voracious extractivism infrastructural neglect or lack of services rural peoples disillusionment with the status quo has had deeply troubling consequences and occasionally hopeful ones as the chapters in this book show The chapters in this book were originally published in The Journal of Peasant Studies **Tuning the Student Mind** Molly Beauregard, 2020-06-01 How

can we rethink teaching practices to include and engage the whole student What would student experience look like if we integrated silence and feeling with empirical analysis Tuning the Student Mind is the story of one teacher's attempt to answer these questions by creating an innovative college course that marries the spiritual and the theoretical integrating meditation and self reflection with more conventional academic curriculum The book follows Molly Beauregard and her students on their intellectual and spiritual journey over the course of a semester in her class Consciousness Creativity and Identity Interweaving personal stories student writing and Beauregard's responses along with recommendations for further reading and a research appendix it makes the case for the transformative power of consciousness centered education Written in a warm engaging voice that reflects Beauregard's teaching style Tuning the Student Mind provides an accessible step by step template for other educators while inviting readers more broadly to reconnect with the joy of learning in and beyond the classroom

Inequality in the United States John Brueggemann, 2020-11-25 For courses in Inequality Social

Stratification and Social Problems A thoughtful compilation of readings on inequality in the United States The main objective of this text is to introduce students to the subject of social stratification as it has developed in sociology The central focus is on domestic inequality in the United States with some attention to the broader international context The primary goal of the text is to offer an understanding of the history and context of debates about inequality and a secondary goal is to give some indication as to what issues are likely to arise in the future

Zur Theorie sozialer Macht Verena Burkolter-Trachsel, 1981

Colony and Empire William G. Robbins, 1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West's dramatic transformation Robbins contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia

Nelson Limerick's *Legacy of Conquest* Robbins's study challenges some of our most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation Sociologus ,1986 **Cooperative Pluralism** Andrew S. McFarland,1993 Arbeit und Macht im Hüttenwerk Thomas Welskopp,1994 **Useful Complaints** Jing Chen,2016-09-09 This book develops an informational theory to account for the coexistence of China's exceptionally resilient authoritarianism and its high decentralization The nuanced information contained in citizens complaints which are filed through the petition system helps to sustain China's decentralized authoritarianism in three important ways First petitions help to alleviate the information asymmetry problem that arises when the central government has less information than lower level governments do When studying citizens petitions higher level governments can obtain valuable and accurate information about local officials performance in policy implementation public goods provision and corruption Higher level governments need this information in order to effectively utilize the cadre management system to reward good performance and punish malpractice The result of this interaction is the PRC's relatively high quality of governance and effective control of local officials There is also a second way in which citizens petitions help the government to overcome the dictator's dilemma that arises when an authoritarian regime is uncertain about how much support it really enjoys among its citizens Citizens specific grievances are revealed in these petitions and are mostly addressed in their beginning stages When citizens complaints are rooted in central policy they set the agenda for policy change in order to maintain social order There is yet a third benefit conferred upon the PRC by the petition system Thanks to the petition system the central government can present itself as the ally of citizens when it addresses the matters raised by their petitions As a result the petition system grants the central government an opportunity to hold local officials accountable scapegoat local authorities divide citizens and local officials and justly claim all the credit when its policies succeed This helps to build citizens trust in their central government and reinforces its legitimacy in their eyes In Huntington's terms the Chinese Communist Party institutionalizes mass support by addressing citizens grievances expressed through the channel of communication provided by the petition system In this sense the complaints of citizens can be very useful tools for regime maintenance The author substantiates these points with case studies and statistical analysis **Forgotten Places** Thomas A. Lyson,William W. Falk,1993

Cultural Strategies of Agenda Denial Roger W. Cobb,Marc Howard Ross,1997 This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities Go Ye and Study the Beehive Jeannette Rodda,2021-12-12 First published in 2000 More than any other occupation the long history of mining raises issues of class and dependency of men women and children bound to permanent wage work or forced labor underground with small hope of securing an independent living Like all popular images perceptions of workers reveal as much about the nature of

the dominant culture as about the complex experiences of workers themselves The main purpose of this study is to document and analyze the development of working class culture in the mining camps of the American West *Democracy Heading South* Augustus B. Cochran, 2001 For Cochran the sense of déjà vu is overwhelming and alarming BOOK JACKET Projekt Europa im Übergang? Klaus Dieter Wolf, 1997 **Conceptus**, 1995 *Die konservative Transformation des Wohlfahrtsstaates* Jens Borchert, 1995 **Community-based Activism Within an Environmental Justice Frame** Joseph William Dorsey, 2001
