Power On Earth Michele Sindona's Explosive Story:

Spione im Vatikan Yvonnick Denoël, 2022-09-22 In der Welt der Geheimdienste ist der Vatikan einzigartig ein Kleinstaat und gleichzeitig eine globale Autorität immer beteiligt am Great Game der geopolitischen Mächte Denoël untersucht beide Seiten die Geheimoperationen des Vatikans und die Spionage der sich der Vatikan ausgesetzt sieht Er schildert konkrete Fälle und analysiert die großen Strategien etwa im Kampf gegen den Kommunismus als Johannes Paul II mit Unterstützung von der Reagan Administration und der amerikanischen Dienste im Gegenzug die Anhänger der Befreiungstheologie in ihrem südamerikanischen Hinterhof unterdrückte Denoël belegt dass Priester am Rande ihrer offiziellen Tätigkeit geheime Missionen durchführten wobei der relative Dilettantismus der vatikanischen Spione dank Ausbildungshilfe der CIA der italienischen und französischen Dienste inzwischen Geschichte ist Und er zeigt dass heutzutage der Vatikan nicht zögert spezialisierte Fachkräfte von außen zu rekrutieren

Over 50 billion dollars in securities Gold reserves that exceed those of industrialized nations Real estate holdings that equal the total area of many countries Opulent palaces containing the world's greatest art treasures These are some of the riches of the Roman Catholic Church Yet in 1929 the Vatican was destitute Pope Pius XI living in a damaged leaky pigeon infested Lateran Palace could hear rats scurrying through the walls and he worried about how he would pay for even basic repairs to unclog the overburdened sewer lines and update the antiquated heating system How did the Church manage in less than seventy five years such an incredible reversal of fortune The story here told by Church historian Paul L Williams is intriguing shocking and outrageous The turnaround began on February 11 1929 with the signing of the Lateran Treaty between the Vatican and fascist leader Benito Mussolini Through this deal Mussolini gained the support of the staunchly Catholic Italian populace who at the time followed the lead of the Church In return the Church received among other benefits a payment of 90 million sovereign status for the Vatican tax free property rights and guaranteed salaries for all priests throughout the country from the Italian government With the stroke of a pen the pope had solved the Vatican's budgetary woes practically overnight yet he also put a great religious institution in league with some of the darkest forces of the 20th century Based on his years of experience as a consultant for the FBI Williams produces explosive and never before published evidence of the Church's morally questionable financial dealings with sinister organizations over seven decades through today He examines the means by which the Vatican accrued enormous wealth during the Great Depression by investing in Mussolini's government the connection between Nazi gold and the Vatican Bank the vast range of Church holdings in the postwar boom period Paul VI's appointment of Mafia chieftain Michele Sindona as the Vatican banker a billion dollar counterfeit stock fraud uncovered by Interpol and the FBI the Ambrosiano Affair called the greatest financial scandal of the 20th Century by the New York Times the mysterious death of John Paul I profits from an international drug ring operating out of Gdansk Poland and revelations about current dealings For both Catholics and non Catholics this troubling expose of corruption in one of the

most revered religious institutions in the world will serve as an urgent call for reform The Darkest Sides of Politics, I Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics
