### **Power Plays Primary School Childrens Constructions Of Gender Power And Adult Work:**

Power Plays Becky Francis, 1998 This book investigates primary school children's constructions of gender in relation to their own lives and the issue of adult occupations. It shows how children actively construct the genders through ritualised and stereotypical behaviour. SAGE Handbook of Play and Learning in Early Childhood Elizabeth Brooker, Mindy Blaise, Susan Edwards, 2014-06-17 This Handbook offers diverse perspectives from scholars across the globe who help us see play in new ways. At the same time the basic nature of play gives a context for us to learn new theoretical frameworks and methods. A real gem. Beth Graue, Department of Curriculum and Instruction, Wisconsin Center for Education Research, USA. Play and learning scholarship has developed considerably over the last decade as has the recognition of its importance to children's learning and development. Containing chapters from highly respected researchers whose work has been critical to building knowledge and expertise in the field, this Handbook focuses on examining historical, current and future research issues in play and learning scholarship. Organized into three sections which consider theoretical and philosophical perspectives on play and learning, play in pedagogy, curriculum and assessment, play contexts. The Handbook's breadth, clarity and rigor will make it essential reading for researchers and postgraduate students as well as professionals with interest in this dynamic and changing field. Liz Brooker is Reader in Early Childhood in the Faculty of Children and Learning at the Institute of Education, University of London. Mindy Blaise is an Associate Professor of Early Childhood Education in the Department of Early Childhood Education at the Hong Kong Institute of Education. Susan Edwards is Associate Professor in Curriculum and Pedagogy at Australian Catholic University. **Boys, Girls and Achievement** Becky Francis, 2002-01-04 Girls are now outperforming boys at GCSE level, giving rise to a debate in the media on boys' underachievement. However, often such work has been a knee-jerk response led by media, not based on solid research. *Boys, Girls and Achievement: Addressing the Classroom Issues* fills that gap and provides a critical overview of the current debate on achievement. Focuses on interviews with young people and classroom observations to examine how boys and girls see themselves as learners, analyses the strategies teachers can use to improve the educational achievements of both boys and girls. Becky Francis provides teachers with a thorough analysis of the various ways in which secondary school pupils construct their gender identities in the classroom. The book also discusses methods teachers might use to challenge these gender constructions in the classroom and thereby address the gender gap in achievement.

**Masculinity and Education** Amanda Coffey, David James, 2016-03-16 The uncertain complex and problematic relationships between masculinity and education have come to occupy a prominent position within the sociology of education in recent years This collection of articles brings together a range of different perspectives offering both empirical and theoretical contributions to our understanding of this subject The articles seek to broaden our sociological understanding by considering masculinities in relation to a variety of educational setting and

contexts These include the role of football in the playground of a junior school the question of why more boys study AS level mathematics in England the changing rhetoric of education ministers and attempts to increase the number of male primary school teachers in Australia The collection also engages with the broader context of gender politics and educational theory and the volume concludes with a study of the move away from class analysis within educational theories in recent decades taking English white working class masculinity as its main focus The collection offers a perceptive insight into a crucial and current area within the sociology of education This book was originally published as a special issue of the British Journal of Sociology of Education

Wisneski,2020-05-11 Reconsidering the Role of Play in Early Childhood Towards Social Justice and Equity a compilation of current play research in early childhood education and care challenges disrupts and reexamines conventional perspectives on play By highlighting powerful and provocative studies from around the world that attend to the complexities and diverse contexts of children s play the issues of social justice and equity related to play are made visible This body of work is framed by the phenomenological viewpoint that presumes equity is best confronted and improved through developing an expanded understanding of play in its multiple variations and dimensions The play studies explore the potential and troubles of play in teaching and learning children s agency in play the actual spaces where children play and different perspectives of play based on identity and culture The editors invite readers to use the research as an inspiration to reconsider their conceptions of play and to take action to work for a world where all children have access to play This book was originally published as a special issue of Early Child Development and Care

**The Nature and Operation of the Gender System in an Australian Outdoor Education Program for Adolescents** Katherine Joy Pinch,2005 *Feminist Periodicals* ,2000 Sport, Active Leisure and Youth Cultures Jayne Caudwell,Peter Bramham,2005 Literacy and Social Inclusion Eve Bearne,Jackie Marsh,2007 Although social inclusion has been high on government agendas for some years there have been few attempts at policy level to examine the issues relating to literacy education Many social and cultural groups feel alienated from traditional models of literacy education and some learners continue to underachieve This book develops insights into how to address these challenges Terms such as social inclusion

and social exclusion are defined explored and related to literacy education by contributors who are renowned in the field They deal with issues of literacy and social class race gender language and sexuality They offer insights into current concerns in these areas and they outline curricula and pedagogical approaches which address underachievement and disaffection The book challenges traditional deficit notions of at risk communities and argues that the onus for change needs instead to be at policy level The book is essential reading for all those concerned with ensuring that literacy education as inscribed in institutions meets the needs and interests of all learners and closes the gaps between home community and school The contributors are Viv Bird Victoria Carrington Barbara Comber Julia Davies Eve Gregory Gemma Moss Kate Pahl Brian Street and Mark Vicars

**Missing Men in Education** Mary Thornton, Patricia Bricheno, 2006 This book reports on the ten years research by the authors into men in teaching There is much concern about boys underachievement in schools compared to girls But attributing this to the dearth of men in teaching is based on assumption and panic and not on hard fact Here at last is research based evidence on the impact of men's presence or absence and their role in this predominantly female profession The book presents a historical perspective on whether and how the lack of men in teaching significantly affects boys learning and behavior in school It considers the complexity of male teacher subjectivities and identities and maps the origins motivations and career trajectories of men teachers as compared to women It thus informs professional and public understanding of gender issues in teaching and their effect on pupils learning and on the profession itself The conclusions have important implications for future policies on recruitment retention and career progression *Missing Men in Education* is for teachers and lecturers across all sectors school governors and managers at all levels careers advisers government departments and policymakers teacher trainers and anyone concerned to get beyond public rhetoric and knee jerk initiatives

*How Pupils Cope with School* Cedric Cullingford, 2008 This book explores the latest research on cognition and its consequences It looks in depth at the pupils experiences of school following many lengthy interviews It demonstrates that the education system as we have it despite the best efforts of teachers has a disastrous effect on the attitudes of young people and does not even fulfil its own limited aims The book explores the themes of the intelligence of children and how they are thwarted from using it the centrality of relationships with peers and adults other than teachers the sources of information especially significant outside school and the vulnerability to trauma which schooling is good at exploiting The research all points to clear conclusions which we need to act on however reluctant we might feel

*Journal of Social Development in Africa*, 2005

*YOU Wouldn't Understand* Sarah Pearce, 2005 *You Wouldn't Understand* looks at ethnic diversity in schools through the eyes of teachers rather than pupils It tells the story of one white teacher's developing understanding of how her own racial and ethnic background influenced the way she regarded and taught the mainly South Asian Muslim children in her classes She began with a belief that narrowness in the curriculum was her students problem but she came to see the bigger picture The book charts her gradual realization that many of the problems come from her own lack of understanding of race

racism and her own racial identity The book explores the idea of whiteness as not a biological but a social construction and one which influences white people s ways of seeing the world in often unnoticed ways The author relates whiteness to aspects of her own behaviour which she recorded in a diary over five years The book also considers the children s struggles to construct and understand their own emerging identities in this environment and the views of several other white teachers some of whom shared the author s confusion and doubts and others who were more confident about teaching in culturally diverse classrooms This searching analysis of the innards of whiteness and the way it affects how white teachers approach pupils who are not white is illuminating and important It should be required reading for all teacher trainers and all white trainee teachers as well as for white managers and teachers working in multi ethnic schools *British Education Index*,2005 **Bibliographic Guide to Psychology** New York Public Library.
