Debating Transcendence Bin Song, 2025-11-04 A bold and rigorous reexamination of transcendence uniting religion theology philosophy and science while bridging Confucian and Christian thought to explore the origins of the world and human destiny Debating Transcendence is a groundbreaking contribution to the ongoing dialogue between Confucian and Christian thought by addressing the transcendence debate a key controversy that has shaped centuries of cross cultural intellectual exchange Song examines whether the Confucian concept of Tian Heaven or Taiji Ultimate Limit possesses a transcendent dimension comparable to Christian understandings of the Creator God This study revisits the historical and philosophical roots of the debate tracing its evolution from early interactions between Confucianism and Christianity during the sixteenth century to present day discussions At the heart of this book is Song's aim to construct a Confucian definition of theology and a Confucian approach to comparative theology Grounded in a scientifically rigorous methodology that transcends the conceptual boundaries of philosophy religion and theology this new approach balances rootedness and impartiality minimizing biases and revealing shared ground Covering essential thinkers from the West and the East such as Plato Augustine Descartes and Paul Tillich alongside Confucius Laozi Wang Bi and Zhu Xi Song explores the historical development of key concepts such as creatio ex nihilo creation out of nothing and sheng sheng birth birth challenging misconceptions and highlighting underexplored commonalities and differences Drawing from his diverse scholarly background and extensive engagement with both traditions Song distinguishes Confucian from Daoist metaphysics and demonstrates that Confucian metaphysics centered around the concept of generatio ex nihilo offers a compelling framework for understanding transcendence that not only resembles but in certain aspects surpasses major streams of its Christian counterpart Readers seeking to understand the profound spiritual foundations underpinning interactions between China and the West will find Song's work essential Combining rigor scope and depth Debating Transcendence paves the way for
