Power Transfer Electoral Politics:

Power Transfer and Electoral Politics Hsin-chi Kuan, 1999 This book provides an in depth analysis of the election of the Hong Kong Legislative Council in May 1998 which was the first general election in Hong Kong since the change of sovereignty to China in 1997 The election was conducted in the wake of the government's mismanagement of health policy and other aspects of public concern and amid widespread hardships inflicted by the Asian financial crisis Nevertheless the election still had the highest turnout rate in Hong Kong's entire history The elected legislature replaced the Provisional Legislative Council which was a product of the Sino British conflict before the change over However as a result of institutional design and electoral outcome this duly elected Legislative Council has been fragmented and weak in its legislative and supervisory powers and therefore there are long term implications for the governance of Hong Kong in general and for the executive legislative relations in particular Contributors to this volume are renowned scholars in Hong Kong studies The various aspects of the 1998 legislative election are critically examined to ascertain their exact meanings and to clarify doubts Questions such as the following are properly addressed Did the transfer of sovereignty have any impact on the systems of election representation and authority What was the impact of institutional change on the conduct of electoral campaigns Did the end of colonialism and the advent of one country two systems help to activate Hong Kong voters who were once dubbed attentive spectators Did the China factor which had been influential in the 1991 and 1995 elections give way to other electoral divisions Did the mass media properly perform their roles during the election Does the emergence of class and economic issues during the election signify a new era of political normalization Will the now legitimately constituted Legislative Council have political clout What is in store for the future

Electoral Politics in Post-1997 Hong Kong Stan Hok-Wui Wong, 2015-03-29 This book offers a novel and parsimonious framework to help understand Hong Kong's lengthy democratic transition by analyzing the electoral dynamics of the city's competitive authoritarian political system where pro Beijing and pro democracy parties have struggled to keep each other in check The author demonstrates how a relatively liberal media environment has shaped the electoral incentives of the opposition and the pro establishment elite differently which has helped the latter improve its basis of electoral support The political explanation the book puts forward seeks to shed new light on why many autocracies are interested in regularly holding elections that are considered somewhat competitive This book will be of great interest not only to specialists in comparative studies of democratization but also to all those concerned with Hong Kong's democratic transition

The Dynamics of Beijing-Hong Kong Relations Sonny Shiu-hing Lo, 2008-04-01 This book critically assesses the implementation of the one country two systems in the Hong Kong Special Administrative Region HKSAR from the political judicial legal economic and societal dimensions The author contends that there has been a gradual process of mainlandization of the HKSAR meaning that Hong Kong is increasingly economically dependent on the People's Republic of China PRC politically deferent to the central government on the scope and pace of

democratic reforms socially more patriotic toward the motherland and more prone to media self censorship and judicially more vulnerable to the interpretation of the Basic Law by the National People's Congress This book aims to achieve a breakthrough in relating the development of Hong Kong politics to the future of mainland China and Taiwan By broadening the focus of the one country two systems from governance to the process of Sino British negotiations and their thrust building efforts this book argues that the diplomats from mainland China and Taiwan can learn from the ways in which Hong Kong's political future was settled in 1982 1984 This is a book for students researchers scholars diplomats and lay people

Social Media and Democratization in Iraqi Kurdistan Munir Mohammad, 2019-10-15 Social Media and Democratization in Iraqi Kurdistan assesses the implications of social media usage for democratization in the context of Iraqi Kurdistan A considerable number of studies examine the impact of social media on the practice of democracy in liberal democratic contexts and on the democratization process in nondemocratic contexts However little is known about the rise and implications of using the Internet and social media platforms for democratization processes in a hybrid political system like that of Iraqi Kurdistan which combines elements of both democracy and authoritarianism The author investigates the use of social media platforms by citizens politicians electoral candidates and political parties and its significance for political participation and political communication which are selected as important elements of democratization Based on original qualitative research including interviews with activists politicians and party leaders and an analysis of relevant social media content in the Kurdish language especially on the social media platform Facebook the author argues that rather than the increase in online political participation and political communication contributing to the consolidation of democracy in the Kurdish nascent democracy it is increasing political polarization exacerbating incivility of political discourse and enabling monitoring of opposition forces by the authorities

Out of the Shadow of 1997? Hsin-chi Kuan, 2002 Hong Kong's Legislative Council Elections have been riddled with difficulties The first partial elections introduced in 1991 were tainted by the traumatic memories of the events of June 4 1989 The elections of 1995 bore the marks of the bitter Sino British controversies over Hong Kong's political reforms As a result of the derailed through train the first general election after the change of sovereignty to China in 1997 produced a two year successor to the Provisional Legislative Council which in turn was troubled by the Asian Financial Crisis In light of this the elections held in September 2000 offered Hong Kong a new lease on life A full four year term legislature was thus elected under conditions that were relatively free from the issues that characterized 1997 uncertainties over the political future of Hong Kong the attendant anxieties of the Hong Kong people and the tortuous struggle over reform initiatives among the political powers This book draws on a wide range of local and overseas expertise to provide an in depth study of the various aspects of the 2000 Legislative Council elections in Hong Kong These aspects include the basic conditions under which the elections took place the role of labor the District Councilors and media reporting the decisive effect of the proportional representation system factionalism in the Democratic Party voting propensity and the issues of identity campaign finance democratization and the degree of political participation

underappreciated role of armed opposition groups turned political parties in shaping long term patterns of politics after war Based on an empirically grounded and theoretically informed retrospective on nearly 30 years of post conflict democratic state building efforts it examines whether this practice has contributed to peace and finds that engaging post rebel parties in electoral politics has proven to be a viable long term strategy for bringing political stability that disparate post rebel parties from different political contexts invest heavily in electoral politics and that few post rebel parties actively seek return to civil conflict as a solution after becoming a political party This book will be of key interest to scholars students and practitioners in democracy governance elections political parties post conflict peacebuilding and more broadly to international relations comparative politics and regional politics *Electoral Politics in India* R.
