Power Gender And Christian Mysticism:

Power, Gender and Christian Mysticism Grace Jantzen, 1995-11-16 In the western Christian tradition the mystic was seen as having direct access to God and therefore great authority In this study Dr Jantzen discusses how men of power defined and controlled who should count as a mystic and thus who would have power women were pointedly excluded This makes her book of special interest to those in gender studies and medieval history Its main argument however is philosophical Because the mystical has gone through many social constructions the modern philosophical assumption that mysticism is essentially about intense subjective experiences is misguided This view is historically inaccurate and perpetuates the same gendered struggle for authority which characterises the history of western Christendom This book is the first on the subject to take issues of gender seriously and to use these as a point of entry for a deconstructive approach to Christian mysticism

Buddhism and Whiteness Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct but we think complementary traditions the philosophical engagement with race whiteness and Buddhist philosophy in order to explore the ways in which these traditions can inform correct and improve each other This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in understanding race and whiteness with the help of Buddhist philosophy and in understanding Buddhist philosophy with the help of philosophy of race and theorizations of whiteness We expand upon a small but growing body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U S culture Buddhist philosophy has much to contribute to furthering our understanding of whiteness and racial identity the mechanisms that create and maintain white supremacy and the possibility of dismantling white supremacy We are interested both in the possible insights that Buddhist metaphysical epistemological and ethical analyses can bring to understanding race and whiteness as well as the potential limitations of such Buddhist inspired approaches In their chapters contributors draw on Buddhist philosophical and contemplative traditions to offer fresh insightful and powerful perspectives on issues regarding racial identity and whiteness including such themes as cultural appropriation mechanisms of racial injustice and racial justice phenomenology of racial oppression epistemologies of racial ignorance liberatory practices with regard to racism Womanism and the intersections of gender based race based and sexuality based oppressions Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions These include various Asian traditions including Theravada Mahayana Tantra and Zen as well as comparatively new American Buddhist traditions *The Mysticism of Ordinary Life* Andrew Prevot, 2023 *The Mysticism of Ordinary Life* presents a new vision of Christian mystical theology offering critical interpretations of the theologians philosophers and intersectional feminists who draw on mystical traditions to affirm ordinary life arguing that everyday experiences of divine grace can be an empowering source of social transformation *Orientalism and Religion* Richard King, 2013-04-03 *Orientalism and Religion* offers us a timely discussion

of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology

Abiding Faith Scott Cowdell, 2009-05-01 Australian theologian Scott Cowdell explores how having faith has changed under the influence of modernity and post modernity in the West He returns faith from pious sentimentality and arid philosophy of religion to the realm of participating knowing paradigmatic imagination and personal transformation where it belongs as a form of life shaped by encounter with Jesus Christ and worked out through the Eucharistic community This is shown to have been the typical understanding of faith from Saint Paul to the Fathers to the medieval monastic theologians Since the rise of nominalism however modern individuals reflecting a God newly remote from the world have struggled to maintain this participatory vision of faith as a formative habitat Mysticism is as close as modernity got while officially faith was annexed by modern Western culture coming to share its anxious need for certainty and control systemic exclusive and violent tending Scott Cowdell has written a wide ranging book bringing together several normally separate debates while tackling the problem from a distinctive perspective He explores faith against the backdrop of secularization the collapse of community and the encroachment of an intentionally destabilizing consumer culture He expounds the nature of desire in terms of imitation and rivalry and the violent false sacred roots of cultural formation evident in the modern West s many victims all according to the uniquely comprehensive vision of Rene Girard Finally he dismisses today s growing mood of militant religious skepticism as philosophically outdated and out of its depth before the resilient confidence of a genuine living faith What Cowdell calls abiding faith emerges as a venerable yet strikingly contemporary possibility This is good news for today s homeless hearts there is the gift of a secure identity and a mature spirituality on offer within a liberating inclusive world affirming ecclesial form of life

Angels of Desire Jay Johnston, 2016-04-08 The idea that the human body consists of subtle bodies psycho spiritual essences can be found in a variety of esoteric traditions This radical form of selfhood challenges the dualisms at the heart of Western discourse mind body divine human matter spirit reason emotion I other Angels of Desire explores the aesthetics and ethics of subtle bodies What emerges is an understanding of embodiment not exclusively tied to materiality The book examines the use of subtle bodies across a range of traditions yogic tantric theosophical hermetic and sufi Angels of Desire shows the relevance of the subtle body for religion philosophy art history and contemporary feminist religious studies and theories of desire

Visionen dichterischen "Mündigwerdens" Susan Nurmi-Schomers, 2008 In dieser Studie dient die Auseinandersetzung mit teils kanonisierten teils vernachlässigten Texten der klassischen Moderne dem Ausloten einer als visionär zu erkennenden poetologischen Tradition die einerseits auf Elemente einer idealistischen Erinnerungspoetik zu rekurrieren andererseits sich erst unter den ver

Mysticisms East and West

Christopher Hugh Partridge, Theodore P. C. Gabriel, 2003 Mysticism is proving to be the chosen type of religion for future generations of believers in the West As traditional institutional religion continues to decline

mystical thought is celebrated as a vital subversive alternative Evidence for this religious cultural shift towards the mystical the experiential and indeed the creation centered can be found in bookstores most of which devote a large amount of shelf space to mystical themes and writers from the world religions While this shift is not new an increasing number of westerners are turning east because they find the fundamentally mystical thought of Asian religious traditions appealing Furthermore numerous westerners have actually become gurus and mystics within Eastern traditions *Mysticisms East and West* examines the worldwide phenomenon of mystical experience across the world religions In examining both Christian and non Christian expressions of mysticism this unique volume brings together a number of prominent evangelical scholars to analyze the central historical cultural and theological issues Beginning in the East these studies in mystical experience gradually move to the West and to Christian mysticism before concluding with a number of philosophically reflective essays examining the implications and nature of mysticism *Approaches to Teaching Teresa of Ávila and the Spanish Mystics* Alison Weber, 2009-01-01 The writings of Teresa of Ávila and the Spanish mystics most notably John of the Cross and Luis de León aroused passionate responses when they were composed Though today's students realize that religious beliefs have wide ranging consequences they are presented with particular challenges in studying the Spanish mystics because of their unfamiliarity with the linguistic social and religious history of early modern Spain This volume is designed to help instructors elicit students curiosity sympathy and appreciation for writings that can at first seem alien or confusing Part 1 Materials recommends accessible editions and translations print electronic and visual resources background and critical studies and sources on the philosophical and theological responses to the Spanish mystics Part 2 Approaches presents methods for teaching the historical contexts of and various theoretical perspectives on the mystics works Contributors consider these authors in relation to Islamic and Jewish mysticism the traditions of women's writing feminism theology and autobiography They also recommend ways to teach particular texts in different kinds of courses and institutions **Mystics Quarterly**, 2003 **Christian Origins** Christopher Rowland, 2002 An account of the beginnings of the Christian movement a third of it on the Judaism of the first century a third on Jesus and a third on Paul and the development from messianic sect to Christian religion *Archiv für Religionsgeschichte*, 2007 *The Writings of Julian of Norwich* Julian (of Norwich), 2006 Julian of Norwich c 1343 c 1416 is the earliest woman writer of English we know about Although she described herself as a simple creature unlettered Julian is now widely recognized as one of the great speculative theologians of the Middle Ages whose thinking about God as love has made a permanent contribution to the tradition of Christian belief This book presents a much needed new edition of Julian's writings in Middle English one that makes possible the serious reading and study of her thought not just for specialists but for all medievalists This edition includes separate texts of both Julian's works *A Vision* *Showed to a Devout Woman* and *A Revelation of Love* with modern punctuation and partly regularized spelling a second analytic edition of *A Vision* printed underneath the text of *A Revelation* to facilitate study of the relationship between the

works facing page explanatory notes with translations of difficult words and phrases cross references to other parts of the text and citations of biblical and other sources an appendix of life records and early responses to Julian's thought and an analytic bibliography The volume also provides an accessible introduction to Julian's life and writings
