## **Rights Of Older Persons:**

**The Human Rights of Older Persons** Bridget Lewis, Kelly Purser, Kirsty Mackie, 2020-08-07 This book provides a comprehensive human rights analysis of key areas of law affecting older persons including legal capacity elder abuse accommodation and aged care healthcare employment financial security retirement and estate planning and social and cultural participation The research identifies individual autonomy and participation in decision making as fundamental to a human rights based approach to elder law The book argues that a paradigm shift must occur away from traditional medical and charity based understandings of old age to instead acknowledge older persons as active holders of enforceable rights The book argues that a Convention on the Rights of Older Persons is an essential tool in achieving this but that even without a dedicated treaty there is much to be gained from a human rights based approach Significantly because the issues arising in old age are often the culmination of experiences occurring throughout the life course a human rights based approach to elder law must begin with a commitment to human rights for people of all ages *Ageing, Ageism and the Law* Israel (Issi) Doron, Nena Georgantzi, 2018-11-30 Europe is ageing However in many European countries and in almost all fields of life older persons experience discrimination social exclusion and negative stereotypes that portray them as different or a burden to society This pivotal book is the first of its kind providing a rich and diverse analysis of the inter relationships between ageing ageism and law within Europe Addressing the Sexual Rights of Older People Catherine Barrett, Sharron Hinchliff, 2017-11-02 There is growing evidence that the sexual rights of older people are not being met One reason perhaps the main reason relates to the way that old age is viewed In many cultures being old is associated with decline and disease which positions older people as dependent and powerless Furthermore an absence of positive or celebratory discourses around older people s sexuality is particularly striking The book addresses a gap in research and policy Using an adaptation of the Declaration of Sexual Rights from the World Association of Sexual Health it provides readers with an innovative and evidence based framework for achieving the sexual rights of older people Drawing on interdisciplinary research it explores the cultural and social locations of old age and its intersections with sexual orientation gender identity and intersex status Key themes include stigma silencing invisibility prejudice discrimination and a lack of information awareness and understanding *Addressing the Sexual Rights of Older People Theory Policy and Practice* is a text for academics health professionals social professionals service providers and policy makers It is a timely and insightful collection which suggests ways to apply the sexual rights framework raise awareness and engage communities in constructing strategies for reform

**Promotion of Human Rights of Older Persons**, 2014 The Committee of Ministers adopted Recommendation CM Rec 2014 2 to member States on the promotion of human rights of older persons on 19 February 2014 The recommendation applies for the first time a human rights based approach to the situation of all older persons with a view to ensuring that they enjoy their fundamental rights and freedoms on an equal basis with other people The recommendation acknowledges and

promotes the autonomy of older persons and at the same time it aims at ensuring them protection in societies where ageism is on the rise and in situations where they may be vulnerable The principles contained therein are illustrated with examples of good national practices in Council of Europe member States The recommendation should serve as a reference for governments non governmental organisations practitioners and all those who are otherwise involved or interested in protecting and promoting the human rights of older persons Publisher Towards Human Rights in Residential Care for Older Persons Helen Meenan,Nicola Rees,Israel Doron,2015-07-30 People are leading significantly longer lives than previous generations did and the proportion of older people in the population is growing Residential care for older people will become increasingly necessary as our society ages and we will require more of it At this moment in time the rights of older people receive attention at international and regional levels with the United Nations the Organization of American States and the African Union exploring the possibility of establishing new conventions for the rights of older persons This book explores the rights of older people and their quality of care once they are living in a care home and considers how we can commence the journey towards a human rights framework to ensure decent and dignified care for older people The book takes a comparative approach to present and future challenges facing the care home sector for older people in Africa Kenya the Arab world Egypt Australia China England Israel Japan and the USA An international panel of experts have contributed chapters identifying how their particular society cares for its older and oldest people the extent to which demographic and economic change has placed their system under pressure and the role that residential elder care homes play in their culture The book also explores the extent to which constitutional or other rights form a foundation to the regulatory and legislative structures to residential elder care and it examines the important concept of dignity As a multi regional study of the care of older person from a human rights perspective this book will be of excellent use and interest in particular to students and researchers of family and welfare law long term care social policy social work human rights and elder law

**Realising Protection from Age Discrimination** Helen Meenan,Christa Tobler,2025-08-11 This timely book presents a considered analysis of age discrimination provisions and outlines constructive guidance as to how they might be reformed It highlights the prevalence of age discrimination for all age groups but especially against older persons demonstrating the importance of effective legal protection for this cohort especially when age discrimination intersects with other grounds

**Human Rights of Older People** Claudia Martin,Diego Rodríguez-Pinzón,Bethany Brown,2015-07-11 This book focuses on descriptions of the developments in legal frameworks and policies regarding the human rights of older persons First it covers the policies adopted and practices developed at the universal system particularly within the sphere of the United Nations Second it includes a side by side comparison of the work of regional human rights mechanisms which have picked up some momentum in the past decade Through its inclusion of law policy and current processes the widest net possible has been cast to collect a descriptive resource for advocates Overall we hope that this book contributes to a better understanding of the current

limitations and possibilities that international institutions offer to uphold the human rights of older persons We expect that this information will allow states and other policy makers to move forward with the international recognition of the human rights of older persons We know this is only a first effort in compiling and reporting the standards that are being produced by different international institutions But we have no doubt that many others will follow with their expert analysis of these emerging standards and that the ongoing discussion will finally crystalize in international human rights binding instruments explicitly recognizing the universal rights of older persons *Research Handbook on Law, Society and Ageing* Sue

Westwood, Nancy J. Knauer, 2024-08-06 In an era where the population is rapidly ageing this timely Research Handbook addresses the wide ranging social and legal issues concerning older people *Research Handbook on Human Rights and Poverty* Martha F. Davis, Morten Kjaerum, Amanda Lyons, 2021-03-26 This important Research Handbook explores the nexus between human rights poverty and inequality as a critical lens for understanding and addressing key challenges of the coming decades including the objectives set out in the Sustainable Development Goals The Research Handbook starts from the premise that poverty is not solely an issue of minimum income and explores the profound ways that deprivation and distributive inequality of power and capability relate to economic social cultural civil and political rights **Health Rights**

**of Older People** Long Thanh Giang, Theresa W. Devasahayam, 2018-04-17 The book examines the health rights of older persons who are more likely potentially to face various disadvantages in terms of healthcare access and affordability thereby impacting on health outcomes The point of departure in the analyses is that the health security of older persons is guaranteed only if a country approaches the health of its citizens out of moral obligation viewing health and well being as a right rather than an entitlement Data from five countries in the ASEAN region are analysed with the intent of highlighting the health inequalities and barriers at the societal and individual levels on the one hand as well as the gaps at the health and healthcare policy and programmatic levels within each country on the other It is also intended that the analyses of the data from the selected countries which represent different stages of development and thus income levels provide a useful comparative framework for policymakers in the ASEAN region **The African Union (AU)** Konstantinos D.

Magliveras, Gino J. Naldi, 2024-01-18 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the structure competence and management of the African Union AU provides substantial and readily accessible information for lawyers academics and policymakers likely to have dealings with its activities and data No other book gives such a clear uncomplicated description of the organization s role its rules and how they are applied its place in the framework of international law or its relations with other organizations The monograph proceeds logically from the organization s genesis and historical development to the structure of its membership its various organs and their mandates its role in intergovernmental cooperation and its interaction with decisions taken at the national level Its competence its financial management and the nature and applicability of its data and publications are fully described Systematic in

presentation this valuable time saving resource offers the quickest easiest way to acquire a sound understanding of the workings of the African Union AU for all interested parties Students and teachers of international law will find it especially valuable as an essential component of the rapidly growing and changing global legal milieu Beyond Elder Law Israel Doron, Ann M. Soden, 2012-03-28 All over the world there is a growing interest in the relationship between law and aging How does the law influence the lives of older people Can rights advocacy and representation advance the social position of the aged and combat ageism What are the new and cutting edge frontiers in the field of elder law Should there be a new international human rights convention in this field These are only a few of the many questions that arise This book attempts to answer some of these questions and to set the agenda for the future development of elder law across the globe Taking into account existing research and knowledge leading scholars from different continents North America Europe Asia and Australia present in this book original and novel ideas regarding the future development of elder law These ideas touch upon key topics such as elder guardianship citizenship mental capacity elder abuse human rights and international law family relationships age discrimination and the right to die This book can thus serve as an important reference work for all those interested in understanding where law and aging are headed and for those concerned about the future legal rights of older persons Well-being In Later Life Linda J. Garcia, Louise Bélanger-Hardy, Jeffrey W. Jutai, Maria Łuszczynska, 2022-12-30 Advancing the notion of connected autonomy and highlighting the importance of interdisciplinary research in the development of this novel concept this volume explores the possibility of maintaining the freedom to make one's own decisions in later life while also remaining connected to others as well as to things services places and events Through a series of case studies the book examines the importance of preserving self-determination as health environmental and social circumstances render autonomy more difficult showing that innovations in social interaction and technology have the capacity to enhance older persons' connectedness to their environment while at the same time offering opportunities for self-governance As such it will appeal to scholars across the social sciences with interests in ageing and the life course the sociology of science and technology and research methods **Fundamental Rights of Older Persons** Europäische Union Agentur für Grundrechte, 2023 Europe's ageing population is ever increasing and our societies are becoming more digitalised Many public services are now available online with many more services in the process of being digitalised But the digitalisation of public services poses a risk of exclusion for older persons In this new report FRA explores the impact of digitalisation on the fundamental rights of older persons The report maps the current legislation policies and practices fostering digital inclusion It provides an overview of the laws at the national level that provide for equal access to public services both online and offline The findings show how Member States safeguard older persons' rights to access services undergoing digitalisation It outlines how Member States can support digital skills and ensure older people can fully participate in public life Abuse, Neglect, and Exploitation of Older Persons Lorin A.
