Rights Of Others Aliens Residents And Citizens:

The Rights of Others Seyla Benhabib, 2004-11-25 The Rights of Others examines the boundaries of political community by focusing on political membership An Analysis of Seyla Benhabib's The Rights of Others Burcu Ozcelik, 2018-05-14 In The Rights of Others Benhabib argues that the transnational movement of people across the globe has brought to the fore fundamental dilemmas facing liberal democracies tension between a state's commitment to universal human rights and to its sovereign self determination and its claims to regulate its national borders on the other Re conceptualises the boundaries of political membership in liberal democracies instead proposing porous borders rather than open ones and a right to just membership advocating cosmopolitan federalism in the tradition of Kant Benhabib's work goes to the heart of key issues faced in a world of forced displacement Brexit and increased protectionism **Citizenship as a Human Right** Gonalo Matias, 2016-06-30 This book examines a stringent problem of current migration societies whether or not to extend citizenship to resident migrants Undocumented migration has been an active issue for many decades in the USA and became a central concern in Europe following the Mediterranean migrant crisis In this innovative study based on the basic principles of transnational citizenship law and the naturalization pattern around the world Matias purports that it is possible to determine that no citizen in waiting should be permanently excluded from citizenship Such a proposition not only imposes a positive duty overriding an important dimension of sovereignty but it also gives rise to a discussion about undocumented migration With its transnational law focus and cases from public international law courts European courts and national courts Citizenship as a Human Right The Fundamental Right to a Specific Citizenship may be applied to virtually anywhere in the world **China-Afrika-BITs im Lichte globaler Machtverlagerungen** Anna Hankings-Evans , 2024-11-11 Afrikanische Staaten hatten als Folgen der globalen COVID 19 Pandemie signifikante Einbrüche von ausländischen Direktinvestitionen zu verzeichnen Zugleich offenbarte die Pandemie neue Wege chinesischer Einflussnahme und Wirtschaftsdiplomatie auf dem afrikanischen Kontinent Während westliche Staaten zunehmend das Bild eines systemischen Rivalen zeichnen erscheinen bilaterale Investitionsschutzabkommen BITs zwischen China und Staaten Afrikas China Afrika BITs aus afrikanischer Perspektive legitimer und entwicklungsfreundlicher als solche mit Staaten des Globalen Nordens Dagegen impliziert das wirtschaftliche Ungleichgewicht der Akteure neokoloniale Tendenzen China Afrika BITs ordnen sich entsprechend in die Debatten um globale Machtverlagerungen und die darin vermutete normative Neuausrichtung der globalen Wirtschaftsordnung ein The Bloomsbury Companion to Arendt Peter Gratton, Yasemin Sari, 2020-10-01 Hannah Arendt's 1906 1975 writings both in public magazines and in her important books are still widely studied today She made original contributions in political thinking that still astound readers and critics alike The subject of several films and numerous books colloquia and newspaper articles Arendt remains a touchstone in innumerable debates about the use of violence in politics the responsibility one has under dictatorships and totalitarianism and how to combat the repetition of the

horrors of the past The Bloomsbury Companion to Arendt offers the definitive guide to her writings and ideas her influences and commentators as well as the reasons for her lasting significance with 66 original essays taking up in accessible terms the myriad ways in which one can take up her work and her continuing importance These essays written by an international set of her best readers and commentators provides a comprehensive coverage of her life and the contexts in which her works were written Special sections take up chapters on each of her key writings the reception of her work and key ways she interpreted those who influenced her If one has come to Arendt from one of her essays on freedom or from yet another bombastic account of her writings on Adolph Eichmann or as a student or professor working in the field of Arendt studies this book provides the ideal tool for thinking with and rediscovering one of the most important intellectuals of the past century But just as importantly contributors advance the study of Arendt into neglected areas such as on science and ecology to demonstrate her importance not just to debates in which she was well known but those touched off only after her death Arendt's approaches as well as her concrete claims about the political have much to offer given the current ecological and refugee crises among others In sum then the Companion provides a tool for thinking with Arendt but also for showing just where those thinking with her can take her work today

Writing in Times of Displacement Mbuh Tenu Mbuh, Meera Chakravorty, John Clammer, 2022-12-23 This book presents diverse composite non exclusive and non hierarchical perspectives on displacement of people as represented in literature It examines the experiences of migration as a result of wars natural disasters religious strife loss of livelihoods and shifts in local and global economies and the vulnerabilities they expose Bringing together scholarly insights into literature about displacement and migration from Africa Europe Asia and the Middle East the book interrogates the development frames of Western modernity and situates displacement within the discourse of disenfranchisement of citizens by nation states It explores the experiences memories and expressions of displacement in literature and how literary works critique ethical and moral responsibilities of states and communities that often do not account for the loss which displacement causes to the health education career or relationships of displaced people The volume will be of great interest to scholars and researchers of literature philosophy migration and diaspora studies development studies African studies and Asian studies

Transnationalisierung der Volkssouveränität Oliver Eberl, 2011 Mehr als zweihundert Jahre nach der Französischen Revolution stellt sich die Frage wie ihre zentrale staatsrechtliche Errungenschaft die Theorie der Volkssouveränität den Herausforderungen der Globalisierung widerstehen oder zur Demokratisierung der internationalen Beziehungen beitragen kann Volkssouveränität heisst dass alle Macht zur Verfassung und Gesetzgebung in den Händen des Volkes liegt Gesetzgebung durch das Volk und Rechtsstaatlichkeit gehen in ihr eine konstitutive Verbindung ein Kann Volkssouveränität die globalen Grenzüberschreitungen der wirtschaftlichen und kommunikativen Systeme durch Transnationalisierung demokratisch nachvollziehen Oder wird nicht vielmehr eine demokratische Kontrolle der Politik durch die globale Entgrenzung unmöglich gemacht Wie stehen die Chancen radikaler

The Refugee Crisis. Threat to or Driver of Cosmopolitan Europe? David Schneider, 2017-04-11 Bachelor Thesis
from the year 2016 in the subject Politics Political Theory and the History of Ideas Journal grade 1.0 University of Tübingen
Global Ethic Institute course Ethics in International Relations language English abstract It is the year 2016 and the Refugee
Crisis is omnipresent in the media public debates as well as in politics The ethical challenge of refugees is being discussed
even in university seminars The topic is drawing big attention not in one European Union EU member state but across the
entire EU The discourse is not homogeneous neither at the national nor the civil society level The reactions range from
wholehearted welcoming of asylum seekers by governments and individuals to hostile xenophobic counter movements What
Xenophobic movements But haven't quite a few scholars Seyla Benhabib and Ulrich Beck among them alluded to connections
between the EU and cosmopolitanism Why then are some member states rejecting refugees instead of welcoming them
hospitably like they should do as cosmopolitan actors This confusion leads to the following question Is the Refugee Crisis a
threat to or could it be in contrast also be a driver of cosmopolitan Europe This question has not been investigated in
academia until now and shall be outlined in this paper Research done in the fields of philosophy sociology political science
and law discusses certain aspects of the question this paper poses and will be put together to solve the puzzle **Moral und**
