Rise Of The Meritocracy:

The Rise of the Meritocracy Michael Young, 2011-12-31 Michael Young has christened the oligarchy of the future Meritocracy. Indeed, the word is now part of the English language. It would appear that the formula IQ Effort Merit may well constitute the basic belief of the ruling class in the twenty-first century. Projecting himself into the year 2034, the author of this sociological satire shows how present decisions and practices may remold our society. It is widespread knowledge that it is insufficient to be somebody's nephew to obtain a responsible post in business, government, teaching, or science. Experts in education and selection apply scientific principles to sift out the leaders of tomorrow. You need intelligence, rating, qualification, experience, application, and a certain caliber to achieve status. In a word, one must show merit to advance in the new society of tomorrow. In a new opening essay, Young reflects on the reception of his work and its production in a candid and lively way. Many of the critical ambiguities surrounding its original publication are now clarified and resolved. What we have is what the Guardian of London called a brilliant essay and what Time and Tide described as a fountain gush of new ideas. Its wit and style make it compulsively enjoyable reading from cover to cover.

The Rise and Rise of Meritocracy Geoff Dench, 2006 The term meritocracy entered the English language with the publication of Michael Young's *The Rise of the Meritocracy*. This work examines what meritocracy means, how it has evolved. It demonstrates that Young was right to question the viability of political systems trying to organise themselves directly around the idea.

Its wit and style make it compulsively enjoyable reading from cover to cover. Has the thrill of immediate relevance, its thinking is consistently rich and fascinating. Young is onto a big theme involving fundamental questions about social organization and individual dignity. What

drives the book is Young's having identified one of the fundamental paradoxes of what we would call liberalism and the British would call socialism the liberal dream of equal opportunity Nicholas Lemann *The Atlantic Monthly* **The rise of the meritocracy, 1870-2033** Michael Dunlop Young, 1965 [The Rise of the Meritocracy 1870-2033](#) Michael Young, 1975 **The Rise of Meritocracy** Michael Young, 1970 [The Rise of the Meritocracy \[Texte Imprimé\]](#) Michael (1915-2002) Auteur Young, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Rise of the Meritocracy [Texte Imprimé]** Michael (1915-2002) Auteur Young, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Kopf, Hand, Herz - Das neue Ringen um Status** David Goodhart, 2021-03-01 Wie viele Akademiker brauchen wir Welche Berufe unsere Gesellschaft zusammenhalten Es muss erst eine Pandemie ausbrechen damit wir merken was unsere Gesellschaft zusammenhält Worauf es wirklich ankommt was systemrelevant ist Die tägliche Versorgung mit Lebensmitteln ist es und die verlässliche medizinische Betreuung Verkäuferinnen und Pfleger für die neuen Helden des Alltags So lange bis sich dieser wieder normalisiert Wir leben in einer Gesellschaft in der kognitive analytische Fähigkeiten am höchsten bewertet werden höhere Bildung für möglichst viele ist erklärtes Ziel An den Schalthebeln der Macht sitzen überwiegend akademisch Ausgebildete sie bestimmen den Kurs stark nach ihren Interessen und Wahrnehmungen Doch das hat seinen Preis Eine Gesellschaft die die Berufe der Hand und des Herzens also Handwerk und soziale Berufe geringschätzt und schlecht bezahlt droht aus der Balance zu geraten Der Kopf hat zu viel Einfluss erlangt so David Goodhart In seiner provozierenden Analyse zeigt er auf warum das problematisch ist und wo wir ansetzen müssen um die Gewichte zu verschieben **Michael Young, Social Science, and the British Left, 1945-1970** Lise Butler, 2020 This book examines the relationship between social science

Auf d. Wege zur Meritokratie Michael Young,Hans Theodor Asbeck,1961 The Craft of Governing R.A.W. Rhodes,2020-08-02 Bargaining and puzzling power and thought dealing and agonising compromise and commitment These are two sides of political practitioners whether politician public servant or campaigner Understand the interplay and we can just sometimes make sense of the real world we seek to interpret Patrick Weller s observation comes from half a century of contemplating politics in action The question of how government works lies at the heart of political science and it has also been the career focus of this pioneer in the field The Craft of Governing offers a tribute to the contribution of Patrick Weller to Australian political science with chapters from leading political commentators including Michelle Grattan Peter Shergold Bob Jackson and James Walter Contributors consider the role of the prime minister approaches to studying executive government the continuing significance of senior public servants and the nature of leadership in public bureaucracies They also reflect on how insights from the study of domestic public policy can be applied to international organisations challenges faced by Westminster democracies and approaches to political biography The Craft of Governing is an invaluable resource for readers interested in approaches to studying politics and the development of political science as a discipline *The Rise of the Meritocracy, 1870-2033* Michael Dunlop Young,1959 A satire surveying the trends of present day British educational policy as from the year 2033 *Europe and the Spectre of Post-growth Society* Piotr Świtalski,2014 Europe has been going through its most serious crisis of values since the fall of communism In public discourse economic and social pressures have overshadowed the other dimensions of the crisis including societal values However the crisis of values would appear to be more than simply an effect of the recession Europeans have lost trust in democratic institutions at all levels European national and local Rising xenophobia and discrimination against minorities undermine the vitality of the European model of tolerance Europe is plagued by endemic corruption which costs it more than 100 billion euro annually triggering political instability Some believe that once Europe is back on the path of growth the crisis of values will disappear and that there will be a resurgence of faith in European integration But in the long term growth in Western societies may be impaired by serious headwinds resulting from demographic trends and rising inequalities and Europe may become the first post growth society European societies are already changing their traditional characteristics as a result of exposure to the effects of two global mega trends the empowerment of the individual and cosmopolitisation Can the European project be of relevance when addressing these challenges What role in this process can be played by the Council of Europe which is the embodiment of the idea that Europe is bigger than the European Union and the European agenda is richer than the economy and politics **Meritocracy, Citizenship and Education** John Beck,2008-05-20 This monograph celebrates the 50th anniversary of Michael Young s

iconic book *The Rise of the Meritocracy* by analysing the ideas behind meritocracy citizenship and education Within the context of Young's ideologies and influences on education the support for meritocracy under New Labour in the UK is examined The book then goes on to examine New Labour's idea of active citizenship The aim is to go beyond exposition to develop a sustained critique particularly of New Labour's over centralising tendencies and the associated erosion of local and institutional democracy
