Risk Taking A Guide For Decision Makers:

Risk Taking Herbert S. Kindler,1990 Risk is everywhere and often avoiding one risk backs us into another The issue for people in organizations is not whether to take risks but how to take reasonable risks The first edition of this book presented a systematic way of evaluating risks and a three step process for making decisions in risky situations The revision looks at the anatomy of decisions in a new way and integrates new studies and information developed over the 8 years since the original publication

The Handbook of Operator Fatigue Gerald Matthews,P.A. Hancock,2017-11-01 Fatigue is a recognized problem in many facets of the human enterprise It is not confined to any one area of activity but enters all situations in which humans have to perform for extended intervals of time Most problematic are the circumstances in which obligatory action is

continuous and the results of failure are evidently serious or even catastrophic Therefore the modern media especially highlights fatigue related failures in industries such as transportation materials processing and healthcare It can be and indeed is no coincidence that most of the spectacular failures in process control that have resulted in the world's largest industrial accidents have occurred in the small hours of the morning when the circadian rhythm is lowest and operator fatigue itself peaks While there have been legislative efforts made at state federal and international levels to regulate working hours of employees the appropriate implementation of such legislation is still a long way off The Handbook of Operator Fatigue provides a comprehensive account of the subject to serve as the definitive reference work for researchers students and practitioners alike The volume features 30 chapters written by experts from around the world to address each important facet of fatigue including the scale of the fatigue problem Section I the nature of fatigue Section II how to assess fatigue Section III the impact of fatigue on health Section IV fatigue in the workplace Section V the neurological basis of fatigue VI sleep disorders VII and the design of countermeasures to fatigue VIII Psychological Perspectives on Financial Decision Making Tomasz Zaleskiewicz, Jakub Traczyk, 2020-07-21 This book reviews the latest research from psychology neuroscience and behavioral economics evaluating how people make financial choices in real life circumstances The volume is divided into three sections investigating financial decision making at the level of the brain the level of an individual decision maker and the level of the society concluding with a discussion of the implications for further research Among the topics discussed Neural and hormonal bases of financial decision making Personality cognitive abilities emotions and financial decisions Aging and financial decision making Coping methods for making financial choices under uncertainty Stock market crashes and market bubbles Psychological perspectives on borrowing paying taxes gambling and charitable giving Psychological Perspectives on Financial Decision Making is a useful reference for researchers both in and outside of psychology including decision making experts consumer psychologists and behavioral economists **The Science of**

Adolescent Risk-Taking National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Adolescence, 2011-02-25 Adolescence is a time when youth make decisions both good and bad that have consequences for the rest of their lives Some of these decisions put them at risk of lifelong health problems injury or death The Institute of Medicine held three public workshops between 2008 and 2009 to provide a venue for researchers health care providers and community leaders to discuss strategies to improve adolescent health

Numerical Reasoning in Judgments and Decision Making about Health Britta L. Anderson, Jay Schulkin, 2014-06-12 Every day thousands of individuals need to make critical decisions about their health based on numerical information yet recent surveys have found that over half the population of the United States is unable to complete basic math problems How does this lack of numerical ability also referred to as low numeracy quantitative illiteracy or statistical illiteracy impact healthcare What can be done to help people with low numeracy skills Numerical Reasoning in

Judgments and Decision Making about Health addresses these questions by examining and explaining the impact of quantitative illiteracy on healthcare and in specific healthcare contexts and discussing what can be done to reduce these healthcare disparities This book will be a useful resource for professionals in many health fields including academics policy makers physicians and other healthcare providers *Individual Differences in Judgement and Decision-Making* Maggie E. Toplak, Joshua Weller, 2016-11-25 Children face an overwhelming amount of information and a range of different choices every day and so there has never been a more important time to understand how children learn to make judgments and decisions in our modern world Individual Differences in Judgment and Decision Making presents cutting edge developmental research to advance our knowledge and understanding of how these competencies emerge Focusing on the role of individual differences the text provides a complementary theoretical approach to understanding the development of judgment and decision making skills and how and why these competencies vary within and between different periods of development Sampling a diverse set of developmental paradigms and measures as well as considering typical and atypically developing samples this volume provokes thinking about how we can support our children and youth to help them make better choices Drawing on the expertise of a range of international contributors this book will be of interest to students and researchers of thinking and reasoning from both cognitive and developmental psychology backgrounds *Alcohol and the Nervous System* Edith V. Sullivan, Adolf Pfefferbaum, 2014-10-08 Alcohol is the most widely used drug in the world yet alcoholism remains a serious addiction affecting nearly 20 million Americans Our current understanding of alcohol s effect on brain structure and related functional damage is being revolutionized by genetic research basic neuroscience brain imaging science and systematic study of cognitive sensory and motor abilities Volume 125 of the Handbook of Clinical Neurology is a comprehensive in depth treatise of studies on alcohol and the brain covering the basic understanding of alcohol s effect on the central nervous system the diagnosis and treatment of alcoholism and prospect for recovery The chapters within will be of interest to clinical neurologists neuropsychologists and researchers in all facets and levels of the neuroscience of alcohol and alcoholism The first focused reference specifically on alcohol and the brain Details our current understanding of how alcohol impacts the central nervous system Covers clinical and social impact of alcohol abuse disorders and the biomedical consequences of alcohol abuse Includes section on neuroimaging of neurochemical markers and brain function

Probabilistic Risk Assessment and Management for Engineers and Scientists Hiromitsu Kumamoto, Ernest J. Henley, 1996 As the demands of government agencies and insurance companies escalate societal risk assessment and management become increasingly critical to the development and use of engineered systems in the full range of industrial installations

Harvard Business Review--on Management Harper Collins Publishers, 1975 Includes bibliography and index **The Managerial Decision-making Process** E. Frank Harrison, 1999 Rather than present decision making strictly as a quantitative science this text views it as a multidimensional process involving values psychology sociology social psychology

and politics Using a process model a focus on the process of a decision rather than the outcome the book presents a variety of perspectives useful for making and evaluating decisions in all kinds of organizations Concepts and Applications of Modern Decision Models Richard C.
