Addressing Gaps and Advancing Scholarship in the Study of Psychological Contracts Sarah Banks, Yannick Griep, Samantha D. Hansen, 2024-08-09 This book acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts. New technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces. Technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology. Factors that motivate work are also changing as new generations of employees embrace their callings and organizations increasingly recognize their responsibilities to society and to employee wellbeing. These changes are altering the traditional employer employee relationship and are key motivators of this volume. The chapters in this volume chart new directions for PC research over the next decade by widening the theoretical and methodological lenses used to explore PC processes. This book will be valuable to advanced students, researchers and practitioners in organizational psychology, organization studies, workplace training and human resource management as well as those interested in improved performance of people and organizations. The chapters in this book were originally published as a special issue of the European Journal of Work and Organizational Psychology.

The New Testament Scholarship of Erasmus Desiderius Erasmus, 2019-03-26 Erasmus produced his five editions of the New Testament in Greek and Latin and his Paraphrases on the Gospels and Epistles almost contemporaneously with the tumultuous events that accompanied the beginnings of the Reformation in Europe. At the same time his scholarship was a signal illustration of the Christian Humanism of northern Europe. His remarkable scholarship is translated and annotated in the Collected Works of Erasmus, volumes 42-60 published by the University of Toronto Press. This volume, CWE 41, seeks to set in perspective in a major introductory essay the full range of that scholarship. It traces the origin of Erasmus' work and its development over the course of the last two decades of his life, placing the work on the New Testament in the context of his life and the political and religious events of his age, revealing the endeavour as a process and thus giving the reader illuminating points of reference for the many cryptic allusions in his annotations and paraphrases. The book includes an annotated translation of three of Erasmus' major writings on Scripture and its interpretation: the *Paraclesis*, the *Ratio verae theologiae* (System of True Theology) and the *Apologia* (defense of his work). It includes as well some of his further attempts to clarify his endeavour: relevant letters and a vitriolic response to his crabby critics, *Contra morosos*. The volume offers a unique insight into the production of Erasmus' scholarship in book form, illustrating abundantly the special features that made his editions of the New Testament and his Paraphrases both esthetically pleasing and effectively marketable products.
