*Annals of Scholarship*, 1980      Key Scholarship in Media Literacy: David Buckingham Allison T. Butler, 2020-11-30 We live in a time of unprecedented media use much of which can be accessed by devices that fit in our pockets Young people in particular make use of media on a near constant basis How can this media use be better understood This text focuses on the scholarship and research of David Buckingham a global leader in media literacy education and children s and young people s media cultures It is not an exaggeration to state that studies and applications of media literacy education around the globe are indebted to the scholarship of Buckingham and that more nuanced understandings of how children and young people make sense of their media choices are due in large part to Buckingham s work Key Scholarship in Media Literacy David Buckingham focuses on the key contributions of Buckingham s work over his prolific career illuminating the advances he made in the field of media literacy education and understandings of young people s media cultures Through a close look at Buckingham s theoretical advancements contributions to the larger field of media literacy education and the key strains of his research how children and young people learn what they already know about media and pop culture before they enter classrooms end media content about and for youth this text delineates Buckingham s vast bibliography and will be an invaluable resource for anyone curious to know more about children youth and media literacy education Analysis of Buckingham s work is drawn from his robust bibliography exploration of scholarship he has critiqued interpretation of contemporary social concerns through the lens of his research and formal and informal conversations with him over the course of several years      Let's Put Data to Use: Digital Scholarship for the Next Generation P. Polydoratou, M. Dobрева, 2014-06-05 The ways in which research data is used and handled continue to capture public attention and are the focus of increasing interest Electronic publishing is intrinsic to digital data management and relevant to the fields of data mining digital publishing and social networks with their implications for scholarly communication information services e learning e business and the cultural heritage sector \_x000D\_ This book presents the proceedings of the 18th International Conference on Electronic Publishing ELPUB held in Thessaloniki Greece in June 2014 The conference brings together researchers and practitioners to discuss the many aspects of electronic publishing and the theme this year is Let s put data to use digital scholarship for the next generation As well as examining the role of cultural heritage and service organisations in the creation accessibility duration and long term preservation of data it provides a discussion forum for the appraisal citation and licensing of research data and the new developments in reviewing publishing and editorial technology \_x000D\_ The book is divided into sections covering the following topics open access and open data knowing the users better researchers and their needs specialized content for researchers publishing and access and practical aspects of electronic publishing \_x000D\_ Providing an overview of all that is current in the electronic publishing world this book will be of interest to practitioners researchers and students in information science as well as users of electronic publishing      *Tax Transfer Pricing* Andrea

Musselli,2022-09-15T00:00:00+02:00 The book pays attention to the tax treatment of transfer pricing in a single perspective of analysis since the most important principles the arm's length ALP i.e. conditions that independent parties would share and the sale country are agreed worldwide They must be applied in the same way regardless of the economic sector or industry A country survey overlooks the most important issue of the fiscal problem that is the ability to project a unitary policy in compliance with the ALP or with the sale country principle and that should be audited by one sole only theoretically existing tax authority The practical part and examples disclose how rules should be have been applied how legal proceedings can arise arose regarding their application how they were decided if litigation truly occurred and finally the author's motivated opinion with special focus on which is the breaking point of a specific analysis The term breaking point is used to explain which can be the factual and or the interpretative change that is able to modify such analysis and thus the solution Extract from the preface of prof Reuven Avi Yonah this book is a must read for any serious student of the topic and an important contribution to understanding how the ALP is applied today as well as to how it should be applied It is an invaluable contribution and should be read widely by both tax lawyers and accountants and by tax policy makers **Excellence vs.**

**Equality** Allan C. Ornstein,2015-11-06 Excellence vs Equality Can Society Achieve Both Goals explores the issues faced by societies attempting to preserve democratic ideals and the common good in an era of incommensurate wealth and opportunity As differences in advantage and ability affect the relationships between institutions and the people who comprise them the book argues that political and social compromise is needed to prevent economic inequality from threatening the well being and mobility of the less able and less fortunate Topics include globalization technology innovation talent and meritocracy higher education big business labor unions and social justice within educational and workplace settings The author raises perennial and ever prescient questions regarding how to balance excellence and equality and how to reduce inequality around the world **Pesher and Hypomnema: A Comparison of Two Commentary Traditions from the Hellenistic-Roman Period**

Pieter B. Hartog,2017-11-06 In Pesher and Hypomnema Pieter B Hartog compares ancient Jewish commentaries on the Hebrew Bible with papyrus commentaries on the Iliad Hartog shows that members of the Qumran movement adopted classical commentary writing and adapted it to their own needs **Ethnography and Education in the South**

Diana Milstein,Regina Coeli Machado e Silva,Sofia Marques da Silva,2025-03-28 This book presents results of educational ethnographies carried out in non hegemonic academies situated in the South The chapters bring out methodological and theoretical contributions and offer the possibility to discuss tensions between universalizable and local ways of knowing and the emergence of alternative schools of ethnographic thinking The term South transcends geographical location to refer allegorically to the generation of situated knowledge and experience and to original ways of producing knowledge that show how social theories about the modern world from non hegemonic academies are equal in intellectual rigour and often of greater political relevance to our changing world The chapters take education in an ample

sense considering that educational processes extrapolate the school context and transcend institutionalised forms The various singularities of the educational ethnographies exposed here try to make explicit aspects of this tension between universalizable and local ways of knowing They reach issues of the relationship of collective knowledge with learning cognition socialization transmission of culture languages and corporeality They also analyse local educational practices in scenarios of intense political conflict where issues such as poverty migration gender ethnicity memory territory and academic training intersect The book brings to light the range of contributions that emerged since the last decade of the twentieth century and stimulates the understanding of the breadth and extension of Ethnography and Education It was originally published as a special issue of the journal Ethnography and Education Sociological Abstracts Leo P.
