**Power and Protest** Jeremi Suri, 2005-04-15 Suri puts the tumultuous 1960s into international perspective in the first study to examine connections between great power diplomacy and global social protest He examines the decade through leaders and protesters on three continents including Mao Zedong Charles de Gaulle Martin Luther King Jr Daniel Cohn Bendit and Aleksandr Solzhenitsyn

Power and Protest Jeremi Suri, 2005-04-15 In a brilliantly conceived book Jeremi Suri puts the tumultuous 1960s into a truly international perspective in the first study to examine the connections between great power diplomacy and global social protest Profoundly disturbed by increasing social and political discontent Cold War powers united on the international front in the policy of detente Though reflecting traditional balance of power considerations detente thus also developed from a common urge for stability among leaders who by the late 1960s were worried about increasingly threatening domestic social activism In the early part of the decade Cold War pressures simultaneously inspired activists and constrained leaders within a few years activism turned revolutionary on a global scale Suri examines the decade through leaders and protesters on three continents including Mao Zedong Charles de Gaulle Martin Luther King Jr Daniel Cohn Bendit and Aleksandr Solzhenitsyn He describes connections between policy and protest from the Berkeley riots to the Prague Spring from the Paris strikes to massive unrest in Wuhan China Designed to protect the existing political order and repress movements for change detente gradually isolated politics from the public The growth of distrust and disillusion in nearly every society left a lasting legacy of global unrest fragmentation and unprecedented public skepticism toward authority

Power and Protest in Central and Eastern Europe Claudiu Crăciun, Henry P. Rammelt, 2025-02-26 This book offers a detailed overview of the politics of contemporary social movements in Central and Eastern Europe The analysis of 11 countries reveals the relevance of protest events social movements and civil society in shaping democratic transition and consolidation electoral politics and institutions socio economic policies and geopolitical orientation This volume shows how power structures and government institutions respond to civic mobilisations and protests using diverse tactics ranging from co option to repression and how protests and mobilisations became consequential in the region s politics

Energy, Power and Protest on the Urban Grid Andrés Luque-Ayala, Jonathan Silver, 2016-04-28 Providing a global overview of experiments around the transformation of cities electricity networks and the social struggles associated with this change this book explores the centrality of electricity infrastructures in the urban configuration of social control segregation integration resource access and poverty alleviation Through multiple accounts from a range of global cities this edited collection establishes an agenda that recognises the uneven and often historical geographies of urban electricity networks prompting attempts to re wire the infrastructure configurations of cities and predicating protest and resistance from residents and social movements alike Through a robust theoretical engagement with established work around the politics of urban infrastructures the book frames the transformation of electricity systems in the context of power and

resistance across urban life drawing links between environmental and social forms of sustainability Such an agenda can provide both insight and inspiration in seeking to build fairer and more sustainable urban futures that bring electricity infrastructures to the fore of academic and policy attention
