Power of Positive Thinking Barbara Jones,2019-11-11 Positive Thinking is a Bunch of Crap and Crap Makes Great FertilizerA positive attitude may not solve all your problems but it will annoy enough people to make it worth the effort Herm AlbrightAt some point in your life you ve probably heard about the power of positive thinking Basically this is a theory that contends if you believe good things will happen to you there will be some sort of cataclysmic shift in the energies surrounding you which will actually cause good things to happen to you For as many people who believe in the power of positive thinking there are many more who believe it s all a bunch of New Age pop psychology drivel or sugar coated Peter Pan platitudes Here s the kicker they re all right You see positive thinking is a system of beliefs So if you believe it doesn t work then of course it won t work And if you believe it does work well you get the idea For non believers using positive thinking is like trying to get a job after high school You need experience to get a job but you need a job to get the experience It can be difficult to know where you re supposed to start But just like any other process the key to making positive thinking work for you is to start small Plant seeds if you will and then learn how to tend and cultivate those seeds until you have a mental garden that bears a phenomenal crop year after year Anything is possible with positive thinking even if you do believe it s all a bunch of crap Norman Vincent Peale the father of positive thinking once said If you have zest and enthusiasm you attract zest and enthusiasm Life does give back in kind This is the essence of positive thinking It s not so much a theory as it is a contagious disease Just as anger and negativity spread quickly from person to person so do humor and happiness only good feelings spread far faster Think about it have you ever noticed that the quickest way to ease a tense situation is to make a joke The instant someone laughs or smiles a sense of relief spreads through everyone in the vicinity Even if the angered parties don t feel better they are at least able to discuss the problem in a detached and objective way and get on with their lives instead of dwelling on negativity For that same reason solo drivers who get cut off in traffic tend to remain angry for at least the rest of the drive because there is no one else near them to send out good vibrations and break the tension Makes sense doesn t it If you ve picked up this book and read this far the seeds of belief are already there Your next step is to clear your mind s garden of doubt and get ready to plant You ll learn how to take all that negativity and mulch it down into fertilizer that will let your possibilities grow Now grab your shovel and let s head in to the garden The biggest tree in the world grows from a seed you can hold between two fingers Whether you think you can or whether you think you can t you re right Henry Ford
