Brown Tide Rising Otto Santa Ana, 2010-01-01 2002 Best Book on Ethnic and Racial Political Ideology and or Political Theory Organized Section on Race Ethnicity and Politics of the American Political Science Association awash under a brown tide the relentless flow of immigrants like waves on a beach these human flows are remaking the face of America Since 1993 metaphorical language such as this has permeated mainstream media reporting on the United States growing Latino population In this groundbreaking book Otto Santa Ana argues that far from being mere figures of speech such metaphors produce and sustain negative public perceptions of the Latino community and its place in American society precluding the view that Latinos are vested with the same rights and privileges as other citizens Applying the insights of cognitive metaphor theory to an extensive natural language data set drawn from hundreds of articles in the Los Angeles Times and other media Santa Ana reveals how metaphorical language portrays Latinos as invaders outsiders burdens parasites diseases animals and weeds He convincingly demonstrates that three anti Latino referenda passed in California because of such imagery particularly the infamous anti immigrant measure Proposition 187 Santa Ana illustrates how Proposition 209 organizers broadcast compelling new metaphors about racism to persuade an electorate that had previously supported affirmative action to ban it He also shows how Proposition 227 supporters used antiquated metaphors for learning school and language to blame Latino children s speech rather than gross structural inequity for their schools failure to educate them Santa Ana

concludes by calling for the creation of insurgent metaphors to contest oppressive U S public discourse about minority communities

The Figure of the Migrant Thomas Nail, 2015-09-23 This book offers a much needed new political theory of an old phenomenon The last decade alone has marked the highest number of migrations in recorded history Constrained by environmental economic and political instability scores of people are on the move But other sorts of changes from global tourism to undocumented labor have led to the fact that to some extent we are all becoming migrants The migrant has become the political figure of our time Rather than viewing migration as the exception to the rule of political fixity and citizenship Thomas Nail reinterprets the history of political power from the perspective of the movement that defines the migrant in the first place Applying his kinopolitics to several major historical conditions territorial political juridical and economic and figures of migration the nomad the barbarian the vagabond and the proletariat he provides fresh tools for the analysis of contemporary migration

Twenty-First Century Seapower Peter Dutton, Robert Ross, Øystein Tunsjø, 2013-05-02 This book offers an assessment of the naval policies of emerging naval powers and the implications for maritime security relations and the global maritime order Since the end of the Cold War China Japan India and Russia have begun to challenge the status quo with the acquisition of advanced naval capabilities The emergence of rising naval powers is a cause for concern as the potential for great power instability is exacerbated by the multiple maritime territorial disputes among new and established naval powers This work explores the underlying sources of maritime ambition through an analysis of various historical cases of naval expansionism It analyses both the sources and dynamics of international naval competition and looks at the ways in which maritime stability and the widespread benefits of international commerce and maritime resource extraction can be sustained through the twenty first century This book will be of much interest to students of naval power Asian security and politics strategic studies security studies and IR in general
