Powers That Punish Prison And Politics In The Era Of The:

The Palgrave Handbook of Prison Design Dominique Moran, Yvonne Jewkes, Kwan-Lamar Blount-Hill, Victor St. John, 2022-12-03 This handbook brings together expertise from a range of disciplinary perspectives and geographical contexts to address a key question facing prison policymakers architects and designers what kind of carceral environments foster wellbeing i e deliver a rehabilitative therapeutic environment or other positive outcomes The Palgrave Handbook of Prison Design offers insights into the construction of custodial facilities alongside consideration of the critical questions any policymaker should ask in commissioning the building of a site for human containment Chapters present experience from Australia Chile Estonia Ireland New Zealand Norway Russia the United Kingdom and the United States jurisdictions which vary widely in terms of the history and development of their prison systems their punitive philosophies and the nature of their public discourse about the role and purpose of imprisonment to offer readers theories frameworks historical accounts design approaches methodological strategies empirical research and practical approaches

The Big House in a Small Town Eric J. Williams, 2011-03-03 This work is an in depth on the ground examination of how prisons impact rural communities including a revealing study of two rural communities that have chosen prisons as an economic development strategy A recent study by the Urban Institute estimates that one third of all counties in the United States house a prison and that our prison and jail population is now over 2.1 million Another report indicates that more than 97 percent of all U.S. prisoners are eventually released and communities are absorbing nearly 650,000 formerly incarcerated individuals each year These figures are particularly alarming considering the fact that rural communities are using prisons as economic development vehicles without fully understanding the effects of these jails on the area This book is the result of author Eric J. Williams ground level research about the effects of prisons upon two rural American communities that lobbied to host maximum security prisons Through hundreds of interviews conducted while living in Florence Colorado and Beeville Texas Williams offers the perspective of local residents on all sides of the issue as well as a social history told mainly from the standpoint of those who lobbied for the prisons

Prisons, Punishment and the Pursuit of Security D. Drake, 2012-07-25 Drawing on research in men's long term maximum security prisons this book examines three interconnected problems the tendency of the prison to obscure other social problems and conceal its own failings the pursuit of greater levels of human security through repressive and violent means and the persistence of the belief in the problem of evil

Prison Architecture and Punishment in Colonial Senegal Dior Konaté, 2018-10-15 For the past four decades a rich scholarship has investigated the emergence of the prison in Europe and North America mainly the connection between institutional architecture techniques of social control and mechanisms of discipline Prison Architecture and Punishment in Colonial Senegal asks if these connections did exist in colonial Senegal since prisons in Africa had never been the focus of such scholarship This book addresses three main themes First it analyzes prison buildings and their changing architectural forms throughout the colonial period to highlight how the

French used prison architecture to control Africans Second it describes the connections between the internal layout of prison spaces and punishment to show how the design of prisons expressed the notions of punishment and reforms The book also undertakes a critical assessment of inmates agency in reshaping the world of prisons in colonial Senegal Finally it discusses the legacy of colonial prisons in independent Senegal By providing a comprehensive history of prison architecture in Senegal the book helps insert Africa into a more global history by offering a uniquely comparative study of colonialism architecture and punishment

Punishing Schools William Lyons, Julie Drew, 2006-03-07 In a society increasingly dominated by zero tolerance thinking Punishing Schools argues that our educational system has become both the subject of legislative punishment and an instrument for the punishment of children William Lyons and Julie Drew analyze the connections between state sanctions against our schools the diversion of funding to charter schools imposition of unfunded mandates and enforcement of dubious forms of teacher accountability and the schools own infliction of punitive measures on their students a vicious cycle that creates fear and encourages the development of passive and dependent citizens Public schools in the United States are no longer viewed as a public good On the contrary they are increasingly modeled after prisons and students similarly have come to mirror the suspicions and fears attributed to prisoners Punishing Schools is one of the most insightful thoughtful and liberating books I have read on what it means to understand critically engage and transform the present status and state of schools from objects of fear and disdain to institutions that value young people teachers and administrators as part of a broader vision of social justice freedom and equality William Lyons and Julie Drew have done their homework and provide all the necessary elements for understanding and defending schools as public spheres that are foundational to a democracy This book should be required reading for every student teacher parent and concerned citizen in the United States In the end this book is not just about saving schools it is also about saving democracy and offering young people a future that matters Henry Giroux McMaster University This is an important book a distinctive contribution The authors move back and forth convincingly between the micropolitics of school discipline and the politics writ large of the liberal left and the utopian right The result is an expansive idealistic and well grounded book in the spirit of the very best of social control literature Stuart Scheingold Professor Emeritus Political Science University of Washington William Lyons is Director of Center for Conflict Management and Associate Professor of Political Science University of Akron Julie Drew is Associate Professor of English University of Akron

Advertising and Cultural Politics in Global Times Pamela Odih, 2016-03-03 Advertising and Cultural Politics in Global Times traces daringly transgressive convergences between cultural politics and global advertising media It engages with a range of interpolations between cultural politics and advertising technologies including the governmental rationality of neoliberal vistas transgressive aesthetics and the cultural politics of representation the political sign economy of citizen branding techno political convergences between the social and political and the marking of a new exciting geo political terrain for cultural politics in global times Tracing global advertising

practices to the cultural politics commonly manifested in the postmodern political caesura of advertising this book makes use of extensive case studies whilst drawing on the work of Baudrillard Giroux Foucault Castells and Latour to illustrate the manner in which advertising continues to revolutionize the political sphere As such it will be of interest to a range of readers across media studies cultural studies and sociology
