**Précis in Conventional Obligations** Alain A. Levasseur, 1980 This book for the practitioner in Louisiana discusses the civil law of obligations as it applies to the Louisiana law of contracts The work provides an understanding of the law of contracts in a civil law environment      **Control of Price Related Terms in Standard Form Contracts** Yeşim M.

Atamer, Pascal Pichonnaz, 2019-11-19 This book explores various approaches around the world regarding price term control and particularly discusses the effectiveness of two major paths ex ante regulatory and ex post judicial intervention Price control and its limits are issues that affect all liberal market economies as well as more regulated markets For the past several years courts in many different countries have been confronted with the issue of whether and to what extent they should intervene regarding price related terms in standard form contracts especially in the area of consumer contracts Open price clauses flat remunerations price adjustment clauses clauses giving the seller supplier the right to ask for additional payments bundling or partitioning practices etc a variety of price related terms are used to manipulate customers choices often also by exploiting their behavioral biases The result is an unfavorable contract that is later challenged in court However invalidating a given price term in standard forms e g of a banking or utilities contract only has an inter partes effect which means that in thousands if not millions of similar contracts the same clauses continue to be used Effective procedural rules are often lacking Therefore pricing patterns that serve to hide rather than to reveal the real cost of goods and services require special attention on the part of regulators The aim of this book is to determine the various approaches in the world regarding price term control and particularly to discuss the efficiency of both paths ex ante regulatory and ex post judicial intervention Thanks to its broad comparative analysis this book offers a thorough overview of the methods employed in several countries It gathers twenty eight contributions from national rapporteurs and one supra national rapporteur EU to the 2018 IACL Congress held in Fukuoka These are supplemented by a general report presented at the same IACL Congress which includes a comparative analysis of the national and supranational reports The national contributors hail from around the globe including Africa 1 Asia 5 Europe 17 the European Union 1 and the Americas 5      *Directory of Law Teachers* , 1986

*West's Louisiana Statutes Annotated: Civil Code* Louisiana, 1951      *Good Faith in Long-Term Relational Supply Contracts in the Context of Hardship from A Comparative Perspective* Peng Guo, 2021-11-09 This book provides fair and acceptable solutions to hardship issues in long term relational supply contracts This book uses an approach to strike a balance between the traditional approach underlying classical contract law which emphasises the almost absolute prevalence of the principle of pacta sunt servanda and a flexible approach that is based on the principle of clausula rebus sic stantibus This book argues for an emerging principle of pacta sunt servanda bona fide on the basis of the relational contract theory Additionally this book demonstrates how good faith can serve as a foundation for imposing a duty to renegotiate on the parties The aim of this book is rather to propose how relational contract theory can be applied to the analysis of specific legal

rules in general Lastly this book highlights how the duty to renegotiate and the power to adapt a contract can be further developed upon the occurrence of hardship based on good faith and the relational nature and characteristics of a long term relational supply contract This book explores and enriches the existing research on relational contract theory concentrates primarily on its application in domestic contract laws particularly in the regulation of long term contracts in American contract law As an outcome this book provides a more feasible and satisfactory approach for courts or arbitral tribunals to undertake when facing hardship issues in international contract disputes Overall hardship themes long term relational supply contracts and good faith are examined extensively International Human Rights and Humanitarian Law Francisco Forrest Martin, Stephen J.
