Right And Left Essays On Dual Symbolic Classification:

Right & Left Rodney Needham, 1978 *Right and Left* is the first book to explore symbolic dualism systematically in a variety of cultures Featuring a new translation of Robert Hertz's seminal work *The Pre-eminence of the Right Hand* this rewarding collection presents seventeen essays written between 1909 and 1971 by notable scholars on both literary and ethnographic aspects of the subject Many appear here in English for the first time and several have been materially revised for this volume Together these essays reveal the amazing range of dual symbolic classifications such as right and left masculine and feminine yin and yang and support Hertz's contention that polarity is a fundamental aspect of human expression back cover

Right and Left, 1992 *Thinking with Demons* Stuart Clark, 1999 This is a work of fundamental importance for our understanding of the intellectual and cultural history of early modern Europe Stuart Clark offers a new interpretation of the witchcraft beliefs of European intellectuals based on their publications in the field of demonology and shows how these beliefs fitted rationally with many other views current in Europe between the fifteenth and eighteenth centuries Professor Clark is the first to explore the appeal of demonology to early modern intellectuals by looking at the books they published on the subject during this period After examining the linguistic foundations of their writings the author shows how the writers' ideas about witchcraft and about magic complemented their other intellectual commitments in particular their conceptions of nature history religion and politics The result is much more than a history of demonology It is a survey of wider intellectual and ideological purposes and underlines just how far the nature of rationality is dependent on its historical context

Fracture Ann Oakley, 2007-04-25 The starting point of Ann Oakley's fascinating book is the fracture of her right arm in the grounds of a hotel in the USA What begins as an accident becomes a journey into some critical themes of modern Western culture the crisis of embodiment and

the perfect self the confusion between body and identity the commodification of bodies and body parts the intrusive surveillance and profiteering of medicine and the law the problem of ageing and the identification of women particularly with bodies from the intensely ambiguous two in one state of pregnancy to women's later transformation into unproductive brittle skeletons Fracture mixes personal experience the author's and other people's with facts derived from other literatures including the history of medicine neurology the sociology of health and illness philosophy and legal discourses on the right to life and people as victims of a greedy litigation system The book's genre spans fiction non-fiction autobiography and social theory

Die bessere und die schlechtere Hälfte Klaus E. Müller, 1984 *Entwicklungstendenzen und Entwicklungsstrategien im pazifischen Inselraum* Werner Kreisel, 1990 *Zeitschrift für Ethnologie*, 1978 Includes the society's Verhandlungen Oct 1870 1902 and its Nachrichten über deutsche Altertumsfunde 1890 1904 published as a separate supplement to the journal

Saeculum Georg Stadtmüller, 1987 Jahrbuch für Universalgeschichte Body and Space Anita Jacobson-Widding, 1991 *Zeitschrift für Semiotik*, 1991 *Encyclopedia of Taboos* Lynn Holden, 2000-12 What are the origins of table manners What are the politics of cannibalism Why is the left hand thought to be sinister These apparently unrelated questions all hinge on the fundamental notion of taboo Far from being peripheral leftovers from distant times and places taboos are a crucial part of any society determining how people must and must not behave The Encyclopedia of Taboos is a mine of unusual information from around the world including a comprehensive analysis of individual taboos from the ancient world to the present day covering both well and lesser known examples

The House of Our Ancestors Thomas Anton Reuter, 2002 The House of Our Ancestors is a study of the Mountain Balinese or Bali Aga an ethnic group with a distinct history and culture who are thought to be the indigenous people of Bali Indonesia In popular ideas of Balinese identity the highland people feature as the conceptual counterpart to the royal houses established in the southern lowlands of the island Hidden in shadow of this courtly culture the world of the highland Balinese has been largely ignored even though Bali counts among the most researched localities in the world This book explores their social organization and status economy from the perspective of an innovative theory of precedence Regional domains villages and origin houses among the Bali Aga are all conceived and ranked in reference to the basic ideas of a sacred origin in the past and of an order of precedence connecting the past with the present The analysis of precedence ranking evident at all levels of Bali Aga social organization leads to the development of a new theory of status for Austronesian societies that departs radically from the notion of hierarchy as proposed by Louis Dumont in his classic study of the Indian caste system

Wholeness

Restored Ralf Norrman,1998 This book presents a new and exciting theory of love of symmetry as a shaping force in thought language and literature The desire to complement any given order with its own inversion so as to create symmetry and thereby restore wholeness is panhuman Its manifestations can be found during all periods in all places and in all societies and individuals although in varying forms and varying intensity In the works of Butler James and Vonnegut the desire is exceptionally strong Through studying love of symmetry at work as a shaping force in the fiction of these authors we become aware of the extent to which love of symmetry influences human existence generally and in ways we have not been aware of before
