Negotiating Resilience with Hard and Soft City Binti Singh, Tania Berger, Manoj Parmar, 2023-03-16 This book explores how cities are

shaped by the lived experiences of inhabitants and examines the ways they develop strategies to cope with daily and unexpected challenges. It argues that migration livelihood and public health challenges result from inadequacies in the hard city urban assets such as land infrastructure and housing and asserts that these challenges and escalating vulnerabilities are best negotiated using the soft city social capital and community networks. In so doing the authors criticise a singular knowledge system and argue for a granular nuanced understanding of cities of the interrelations between people in places everyday urbanisms social relationships cultural practices and histories. The volume presents perspectives from the Global South and the Global North and engages with city specific cases from Africa India and Europe for a deeper understanding of resilience. Part of the Urban Futures series it will be of great interest to students and researchers of urban studies urban planning urban management architecture urban sociology urban design ecology conservation and urban sustainability.
