## **Rise Of Normative Christianity:**

**The Rise of Normative Christianity** Arland J. Hultgren, 1994 The influences wrought by the ancient documents discovered at Nag Hammadi have given rise to the notion that various Gnostic interpretations are mere alternatives to more traditional interpretations of Jesus and His significance Hultgren contends that such a tradition originated at the beginnings of Christianity and came to dominate as the most adequate expression of Jesus legacy Christian History Alister E. McGrath, 2013-03-04 A major new introduction to the global history of Christianity written by one of the world's leading theologians and author of numerous bestselling textbooks Provides a truly global review by exploring the development of Christianity and related issues in Asia Latin America and Africa and not just focusing on Western concerns Spanning more than two millennia and combining elements of theology history and culture it traces the development of all three branches of Christianity Catholic Protestant and Orthodox providing context to Christianity's origins and its links to Judaism Looks beyond denominational history at Christianity's impact on individuals society politics and intellectual thought as well as on art architecture and the natural sciences Combines McGrath's acute historical sensibility with formidable organizational skill breaking the material down into accessible self-contained historical periods Offers an accessible and student-oriented text assuming little or no advance theological or historical knowledge on the part of the reader **In the World but Not of the World** A. Sue Russell, 2019-11-20 There has been much discussion of two dimensions of the kingdom of God in scholarship the temporal already not yet and the embodied spirit flesh Russell proposes that there is a third parallel dimension a social dimension Using Victor Turner's concepts of structure antistructure and liminality Russell explores how these concepts are consistently expressed in Jesus teaching in Paul's writing and through the writers of the second and third centuries She demonstrates how from the very beginning of the Jesus movement Christ followers were unique not because their members were to live liminal lives apart from structure but because they lived out new antistructural relationships within existing structures and thus transformed them They lived liminally within their structure *The Rise of Christianity* W. H. C. Frend, 1984 Traces the early history of the Christian church from Jewish Palestine prior to Christ's birth to the sixth century monastic movement and explains how Christianity survived under a variety of cultures Systematics Critical and Constructive 1 Ronald R. Ray, 2018-08-15 This labor of love distills Dr Ron Ray's lifetime reflections on the truth and meaning of the gospel of Jesus Christ Gathered in one volume is an abundant harvest from the best of twentieth century systematic theology Beginning students will find here an informative and clear introductory text Working pastors will receive a refresher course to steady and strengthen a ministry of integrity and joy Preachers will benefit from the author's recommendation of the topical biblical sermon an approach that leads to contemporary topics for textually based scriptural preaching while reinvigorating topical preaching with scriptural sturdiness With both conviction and transparency Ray welcomes his readers into a thoughtful conversation about why and how the Christian message still matters today In the process we also see

firsthand how and why systematic theology can still matter today for those entrusted with proclaiming the good news of Jesus Christ James F Kay Dean and Vice President of Academic Affairs Professor Princeton Theological Seminary This critical and constructive perspective interacts with such fields as biblical studies Old and New Testament theology hermeneutics and other philosophy Ray s synthesis arises out of a unique theological and pastoral pilgrimage as a minister in the United States and as a missionary theologian and Christian ethicist in Nigeria and Kenya As one might expect from a scholar who did the first PhD dissertation on Jacques Ellul Ray writes with a forthright probing honest style He criticizes authors at highly specific points but often demonstrates indebtedness to the same scholars He is deeply informed by the New Testament and secondarily by the Old Testament yet insists that interpretive dishonesty is no Christian virtue Leicester R Longden Assoc Professor of Evangelism and Discipleship Emeritus University of Dubuque Theological Seminary

**The Rise of Church Consciousness Among Early Christians ...** Samuel MacLean Gilmour,1937 Theologie der Kirchenväter Michael Fiedrowicz,2007 Die neue Monographie zur Patristik schließt die Lücke zwischen Handbüchern zur Patrologie Altaner Drobner LACL einerseits und Darstellungen der frühchristlichen Dogmen und Theologiegeschichte andererseits Während dort Leben und Schriften der frühchristlichen Autoren sowie der Inhalt ihrer Lehren in ihrer geschichtlichen Entwicklung behandelt werden nimmt das vorliegende Werk vor allem Selbstverständnis und Orientierungspunkte der Kirchenvätertheologie in den Blick Dem Lehrbuch geht es um eine die gesamte patristische Epoche umfassende Darstellung der theologischen Methode der Kirchenväter

**The Earliest Christian Heretics** Arland J. Hultgren,Steven A. Haggmark,1996 Hultgren and Haggmark have brought together in one volume all of the major orthodox references to persons and theological movements of the first two Christian centuries that were subsequently branded as heretical In so doing the editors have done a great service for instructors in early Christian history The volume s brief introduction not only helps contextualize the heterodox thinkers or movements in their time but also helps relate the concerns that they addressed in the first and second centuries to those of the late twentieth century For those readers as well as for scholars who would like to have a ready reference this is a useful volume Church History The Earliest Christian Heretics is a user friendly anthology that will be a great help to both the beginning student and specialized scholar and teacher of early Christianity Whereas once the researcher had to rifle through the cumbersome volumes of the Ante Nicene Fathers series now she can reach for this handy compendium to find all major heresiological entries for the first two centuries presented in a simple clear format Journal of Early Christian Studies A highly useful compendium of well chosen early Christian writings in English directed against a wide variety of heretics especially Gnostics Robert M Grant University of Chicago This book fills a surprising gap It is highly recommended as a classroom resource for college and seminary a study guide for the interested nonexpert and even a handy tool for the graduate student of scholar for quick reference to sources otherwise scattered Carolyn Osiek Catholic Theological Union

**Religion**, 1995      **Ancient Judaism and the New Testament** Frederick Clifton Grant, 1978      *A Scientific Theology* Alister E. McGrath, 2003

Written by Alister McGrath one of the world's best known theologians these volumes present the most extended and systematic exploration of the relation between Christian theology and the natural sciences ever undertaken Thoroughly ecumenical in approach *A Scientific Theology* is a significant work for Catholic Orthodox and Protestant readers Each volume is marked throughout by a sustained critical engagement with the history and philosophy of the natural sciences and by a passionate commitment to the legitimacy of theology as an academic discipline Volume 3 provides a fresh evaluation of the origins and place of theory in Christian theology Dealing with the question of how reality is represented in Christian theology and the natural sciences theory is understood as a response to experienced reality a communal beholding of reality Against those who might favor a non dogmatic Christianity McGrath argues that the Christian community is under an intellectual obligation to give an account of what it corporately beholds The many theoretical issues addressed in this volume include the manner in which closure is secured in theological theorizing the problem of reductionism in theoretical analysis the explanatory dimensions of theology the implications of the stratification of reality for its representation the place of metaphysics in Christian theology and the nature of revelation itself Book jacket      *The Catholic Biblical Quarterly* Wendell Stephen Reilly, 1995 Includes various reports of the Association      **Exploring Early Christian Identity** Bengt Holmberg, 2008 The main point of emphasis in the book is that approaching the Christian movement's early history through investigating its identity helps us to understand how the followers of Jesus developed from an intra Jewish messianic renewal movement into a new religion with a major Gentile membership and major differences from its Jewish matrix all in only a hundred years Identity is not simply a collection of beliefs that was agreed upon by many first century Christians It is embedded or rather embodied in real life as participation in the founding myths narrativized memory of and accepted teaching on Jesus in cults and rituals as well as in ethical teaching and behavioral norms crystallized into social relations and institutions This is a dynamic feedback process full of conflicts and difficulties both internal and caused by the surrounding society and culture The authors explore different aspects of identity such as how the Gospels narrativization of the social memory shapes and is shaped by the identity of the groups from which they emerge how labels such as Jewish and Christian should and should not be understood the identity forming role of behavioral norms in letters and the interplay between competing leadership ideals and the underlying unity of different Christian groups They also show that identity formation is not necessarily related to innovation in moral teaching nor averse to making use of ancient conventions of masculinity with their emphasis on dominance      *Religion and Nationalism in Chinese Societies* Cheng-tian Kuo, 2025-10-01 This book explores the interaction between religion and nationalism in the Chinese societies of mainland China Taiwan and Hong Kong Cheng-tian Kuo analyses the dominant religions including Chinese Buddhism Tibetan Buddhism Daoism Christianity Islam and folk religions but he also goes beyond that showing how in recent decades the

Chinese state has tightened its control over religion to an unprecedented degree Indeed it could almost be said to have constructed a wholly new religion Chinese Patriotism The same period however has seen the growth of democratic civil religions which could challenge the state
