Understanding Business Ethics Peter A. Stanwick, Sarah D. Stanwick, 2024-05-08 *Understanding Business Ethics* Fourth Edition offers an impactful exploration into the realm of ethics in the global business environment. Authors Peter A. Stanwick and Sarah D. Stanwick integrate four key dimensions to differentiate their work from other ethics textbooks: a global perspective, real world business cases, comprehensive ethics topics, and a consistent theme linking each chapter. Whether it's uncovering the intricate relations between businesses and their stakeholders, discussing the effects of financial reporting, or exploring the ethical implications of information technology, marketing, human resources, and the natural environment, this textbook equips readers with a robust ethical framework for the business world. Additionally, the timely case studies from diverse industries demonstrate the very real consequences of ethical and unethical decisions. This text is offered in Sage Vantage, an intuitive learning platform that integrates quality Sage textbook content with assignable multimedia activities and auto-graded assessments to drive student engagement and ensure accountability. Unparalleled in its ease of use and built for dynamic teaching and learning, Vantage offers customizable LMS integration and best-in-class support. Florence Ebam Etta, Laurent Elder, 2005 In 1996 only five African countries had internet connectivity. In 2001, all the countries on the continent had connectivity, and in the early part of the twenty-first century, Africa has experienced the fastest rate in growth of internet usage in the world. Yet this is only part of the story. To date, Africa remains the least connected continent in the world and registers some of the greatest disparities and inequalities in access to ICTs. The digital divide is still very much a reality. The contributors to this volume provide invaluable information on the development and use of ICTs in Kenya and East Africa. Specifically, they raise questions about ICT policy and implementation, the respective roles of the public and private sectors, and the application of ICTs in government, education, and various industries. Based on empirical research, the authors demonstrate the considerable progress that has been made in the region to promote ICT initiatives and projects as part of the wider development agenda. They also explore the many challenges, the next stage of ICT development.
