Choi,2021-03-04 From New York Times bestselling author Mary H K Choi comes a funny and emotional story about two estranged sisters and how far they ll go to save one of their lives even if it means swapping identities Jayne and June Baek are nothing alike June s three years older a classic first born know it all narc with a problematic finance job and an equally soulless apartment according to Jayne Jayne

is an emotionally stunted self obsessed basket case who lives in squalor has egregious taste in men and needs to get to class and stop wasting Mom and Dad's money if you ask June Once thick as thieves these sisters who moved from Seoul to San Antonio to New York together now don't want anything to do with each other That is until June gets cancer And Jayne becomes the only one who can help her Flung together by circumstance housing woes and family secrets will the sisters learn more about each other than they re willing to confront And what if while helping June Jayne has to confront the fact that maybe she s sick too Human Virtuality and Digital Life Richard Frankel, Victor J. Krebs, 2021-08-12 Winner of the Gradiva Best Book Award 2022 and the Courage to Dream Book Prize 2023 from the Academy of the American Psychoanalytic Association This book is a psychoanalytic and philosophical exploration of how the digital is transforming our perception of the world and our understanding of ourselves Drawing on examples from everyday life myth and popular culture this book argues that virtual reality is only the latest instantiation of the phenomenon of the virtual which is intrinsic to human being It illuminates what is at stake in our understanding of the relationship between the virtual and the real showing how our present technologies both enhance and diminish our psychological lives The authors claim that technology is a pharmakon at the same time both a remedy and a poison and in their writing exemplify a method that overcomes the polarization that compels us to regard it either as a liberating force or a dangerous threat in human life The digital revolution challenges us to reckon with the implications of what is being called our posthuman condition leaving behind our modern conception of the world as constituted by atemporal essences and reconceiving it instead as one of processes and change The book s postscript considers the sudden plunge into the virtual effected by the 2020 global pandemic Accessible and wide reaching this book will appeal not only to psychotherapists psychoanalysts and philosophers but anyone interested in the ways virtuality and the digital are transforming our contemporary lives Audio .1995 The New York Times Book **Review** ,1988-07
