Financial Aid Price:

Education Statistics Quarterly, 2002 *Student Financing of Undergraduate Education, 1999-2000*, 2002 **The Condition of Education**, 1998 Financial Aid Financer Joseph M. Re, 2006-09 **The Condition of Education** National Center for Education Statistics, 1998 *Getting Financial Aid*, 2007 **Sharing the Costs of Higher Education** Donald Bruce Johnstone, 1986 The educational and living costs of undergraduate studies and the ways these costs are shared among parents students taxpayers and philanthropists donors are considered for five countries the United States the United Kingdom the Federal Republic of Germany France and Sweden Five policy issues that are linked to how costs are shared by parents students and the general taxpayer are identified including the participation in higher education by low income and other previously excluded groups The five country profiles and comparative analysis consider the out of pocket costs faced by students and parents the expected parental contribution if any and how it is derived the expected student contribution from savings work or loans the taxpayer borne contribution e g need based grants loan subsidies trends and issues regarding the sharing of higher education costs within each country problems or issues common to all five countries and each country s structure and governance of higher education Appended materials describe the concept of purchasing power parity as well as concepts for separating subsidized loans into a true loan and an effective grant SW **Global Issues in Higher Education** Pamela B. Richards, 2007 In most developed countries a high proportion of the population up to 50 percent now enter higher education at some time in their lives Higher education is therefore very important to national economies both as a significant industry in its own right and as a source of trained and educated personnel for the rest of the economy It follows that there are enormous stakes involved for a particular country even though the payoff of serious reforms may take decades and thus be counterproductive to the political forces responsible for designing and implementing such reforms since their horizons tend to be very short This new book tackles important issues in this dynamic field *Background Papers on Student Charges, Student Financial Aid, and Access to Postsecondary Education*, 1982 **Community College Students, Costs and Finances** William Hyde, John Augenblick, 1980 Financial Aid and Its Relationship to the Persistence and Academic Achievement of Ethnic Minority Students Carolyn Shizue Nayematsu, 1997 **What Students Pay for College**, 2002 100 Ways to Cut the High Cost of Attending College Michael P. Viollt, 2002-04-30 100 Ways to Cut the High Cost of Attending College goes beyond giving information on college scholarships and financial aid programs Viollt s book spells out in a clear concise workbook format many different ways that students can reduce tuition costs and living expenses and get the maximum benefits for their money Examples of Viollt s recommendations include transferring from community college establishing in state residency obtaining federal grants and loans working for colleges in exchange for stipends or free housing using employers and military service to help in getting a college degree and graduating in a timely fashion without having to pay for extra semesters Also included are rankings of colleges and profiles of students that show these tips put into

practice The skyrocketing costs of college tuitions which generally increase at twice the rate of inflation have led families with comfortable incomes to explore ways to keep education costs manageable For those who don't qualify for need based financial aid but still find the cost of college to be daunting Viollet's guide provides excellent insights on staying within a reasonable budget while getting a useful and comprehensive education **The College Board Review** ,1991 **The Condition of Education 1998** John Wirt, Tom Snyder, Jennifer Sable, Susan P. Choy, Yupin Bae, Janis Stennett, Allison Gruner, Marianne Perie,1998 **A Review and Introduction to Higher Education Price Response Studies** Mark Chisholm,1982 *Perspectives on Financial Aid* ,1975 *Money for Graduate Students in the Arts and Humanities 2003-2005* Gail A.
