Determining the College Football Playoff: Weighted Wins, A Better Approach Ray D. Theis, Mark G. Terwilliger, 2021-09-21 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA s Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for

all members of the Bowl Subdivision **NCAA Football** ,1987 *Meat Market* Bruce Feldman,2014-11-04 One of the most insightful books ever written about college football The New York Times Now revised and updated by the author MEAT MARKET proves that in college football the game off the field is more brutal than the one on the field In this shattering expose Bruce Feldman goes into the war rooms to show who stands to profit when champions get built and at what cost A college football program can become a multi million dollar industry for its school but only if that program wins The quest for excellence goes beyond the guts and the glory of the gridiron it goes into the war rooms where recruiters size up every metric to determine which high school phenom they want to recruit to the university Bruce Feldman FOX Sports College Football Insider rips the cover off the game s frenzied pursuit of raw talent taking you deep inside the SEC war room of recruiting legend Ed Orgeron the combustible Cajun who helped build national championship teams at the University of Miami and at USC In a stunning blow by blow account of the year leading up to National Signing Day 2007 the award winning journalist shadows Orgeron and his Ole Miss assistants as they set about hunting high school students pleading plotting and inventing ways to lure them to their sleepy Oxford campus Packed with candid confessions and outrageous off the field action Meat Market makes what happens on the field seem almost tame by comparison MEAT MARKET is a must read for all college football fans an eye opening discovery of what it takes to put their favorite team on the field **Saturday Millionaires** Kristi Dosh,2013-07-31 Last year Football Bowl Subdivision college football programs produced over 1 billion in net revenue Record breaking television contracts were announced Despite the enormous revenue college football is in upheaval Schools are accused of throwing their academic mission aside to fund their football teams The media and fans are beating the drum for athletes to be paid And the conferences are being radically revised as schools search for TV money Saturday Millionaires shows that schools are right to fund their football teams first that athletes will never be paid like employees how the media skews the financial facts and why the TV deals are so important It follows the money to the heart of college football and shows the real game being played covering such areas as Myth 1 All Athletic Departments Are Created Equal Myth 2 Supporting Football Means Degrading Academics Myth 3 College Football Players Could Be Paid Like Employees Myth 4 Football Coaches Are Overpaid Myth 5 A Playoff Will Bring Equality to College Football Myth 6 Only a Handful of Athletic Departments Are Self Sustaining The business of college football is unlike any other business Saturday Millionaires takes you behind the scenes and teaches you how to understand the industry from the inside out touching on such subjects as conference realignment pay for play conference television networks and where all those millions go at the end of the day The History of American College Football Christian K. Opiate of America Paul Kersey,2012-09-01 Throughout the 267 page report compiled on the Penn State scandal and the coverup of the Jerry Sandusky child abuse it is one line that cuts to the heart of why America is in so much trouble A culture of reverence for the football program that is ingrained at all levels of the campus community Paul Kersey dares take you down the rabbit hole and show you how far that reverence for college football goes on the campuses of some of America s best colleges and universities And in the process he clearly shows that a new form of discrimination has emerged that against white high school athletes The godfather of college football recruiting Tom Lemming told the Chicago Sun Times in 2009 College recruiters talk off the record to me said Lemming They talk off the record that if an athlete is white no matter how great his production they won t recruit him On his annual coast to coast trips to evaluate the top 1 500 prospects in the country Lemming sees hundreds of white tailbacks who are very productive but few get a chance in college Paul Kersey will show you the ramifications of majority black major college football where the Southeastern Conference SEC went from all white teams up until the early 1970s to fielding squads of almost black starters who rely on special admits to gain acceptance to the university [NCAA Football 14](#) Electronic Arts,2013 *Official ... sports radio and many pundits have extolled the new system. A careful and detailed examination of the new process, however, reveals that in reality very little has changed. The new system preserves the old organization which ensured that only a few teams would ever be considered for the championship. It puts the Power Five leagues into the position of a closed shop where no one outside their membership will ever be considered for the four slots the current college football playoff CFP allows. The other five leagues known as the mid majors are a perpetual junior varsity that stands on the sidelines praying for a chance to stand briefly outside the shadow of the big guys who pat them on the head occasionally.
