The Combat Codes Alexander Darwin, 2023-06-13 The Combat Codes is set in a far future world where the fate of nations is determined by single combat at the hands of famed warriors Perfect for fans of action driven science fiction martial arts stories and LitRPG novels this debut novel the first in a trilogy has fans ranging from award winning fantasy authors to trophy winning UFC fighters Hundreds of years ago on a planet once ravaged by war the nations swore an armistice never to use weapons of mass destruction again Today battle hardened warriors known as Grievor Knights train to represent their nations interests in brutal hand to hand combat Murray Pearson was once a famed Knight until he suffered a loss that crippled his nation but now he s on the hunt to find and train the next champion Below in the Underground s brutal combat rings an orphaned boy called Cego is making a name for himself Murray believes he has what it takes to make it in the planet s most prestigious combat school but he has to fight his way out of the Underground first A brutal and relentless science fantasy martial arts extravaganza set in a world where the fate of nations rests on the perfect counterpunch or rear naked choke The Combat Codes is that rare book that fully satisfies me as an action fan Fonda Lee author of Jade City The Combat Codes by Alexander Darwin is a chimera blending Science Fiction and Fantasy to tell a vividly realized tale both focused and sprawling It s a book about warriors written by a master of the martial arts and the mastery shows In its pages expect to explore power politics and brutal violence but I repeat myself Evan Winter author of The Rage of Dragons This book kicks ass literally and literarily Richard Swan author of The Justice of Kings If Mike Tyson wrote a sci fi novel and could write like he threw a right hook it would read a little like The Combat Codes Bare knuckle brilliance Jackson Ford author of The Girl Who Could Move Sh t with Her Mind The Combat Codes was a fantastic read that takes you along the martial arts path of self discovery The storyline training fights and philosophy in the book made it highly enjoyable Whether you are a martial artist fan or just an SFF reader this book will be a lot of fun Kenny Florian MMA Commentator and Ex UFC Fighter The Combat Codes is combat as it was meant to be written raw but elegant a blend of the poet s wordsmithing and the martial art master s technical expertise Better yet it s a fun heartfelt story about the underprivileged banding together to rise up A fantastic reading experience Moses Ose Utomi author of The Lies of Ajungo CSR and Codes of Business Ethics in the USA, Austria (EU) and China and their Enforcement in International Supply Chain Arbitrations Adolf Peter, 2021-02-23 This book analyzes the implementation of CSR reporting and codes of business conduct and ethics in the legal systems of the USA Austria and China and their enforcement in international supply chain arbitrations The book demonstrates that long term profit maximization is increasingly intertwined with corporate ethics and CSR policies In order to prevent window dressing and greenwashing certain control mechanisms and legal standards are required along the entire supply chain This book introduces an ethics and CSR system recommending a reward based whistleblowing mechanism internal oversight by a CSR and Ethics Committee comprised of independent board members and at least one sustainability expert and an external

independent and comprehensive assurance of CSR reports provided by auditing firms or newly formed governmental agencies consisting of certified CSR experts The author emphasizes the significance for supply chain leaders to ensure contractual enforcement of their codes of business ethics and conduct along the supply chain Against this background the author created a comprehensive fictitious case scenario covering a supply chain dispute arising from the breach of the supply chain leader s code of business conduct and ethics by a lower tier supply chain member The author acknowledges the fact that in most of the cases the governing law of international supply chain contracts is English law or law based on English law Thus the author discusses potential contractual claims for damages arising from a loss of profits caused by a loss of reputation resulting from violations of core provisions of the chain leader s supplier code of conduct pursuant to English law As international supply chain disputes usually involve more than two parties and international arbitration is the ideal means for the resolution of these disputes the book compares the arbitration rules for consolidations and joinders of some of the most significant international arbitration institutions SIAC ICC AIAC ICDR VIAC CIETAC and HKIAC The book is directed at legal practitioners legislators of various jurisdictions board members of corporations ethics and compliance officers academics researchers and students It is the author s main goal that the book serves as an inspirational source for the establishment or the improvement of a corporate ethics and CSR system preventing window dressing and greenwashing and covering the entire supply chain Furthermore it is intended that students develop a deeper understanding for the enforcement of corporate ethics and CSR policies
