Core and Contingent Work in the European Union Edoardo Ales, Olaf Deinert, Jeff Kenner, 2017-02-23 Labour and social security law studies have addressed the topic of the decline of the standard employment relationship mainly from the point of view of the growing number of atypical relationships. Only a limited number of studies have examined the issue from the perspective of the differentiation between core and contingent work. Such an examination is necessary as the increase in contingent work leads to complicated legal questions which vary between European states depending on the type of contingent arrangements that have become most prevalent. This book analyses using a comparative approach these different types of contingency from a national and EU perspective touching on the work relationship from a labour as well as a social security point of view. The aim of the book is to identify and analyse those questions adopting an innovative approach and to put forward proposals for safeguarding social cohesion within undertakings and European society. *ROAM Journal of Real*

Drawing on political economy, economics, geography and sociology, this research has brought together distinct theoretical traditions in original and fertile ways to reshape the study of issues related to class, political economic change and environmental challenges. This book critically engages with these theoretical resources to analyse and evaluate economies in the Global North and South. It offers historical, theoretical and empirical accounts of rentierism, making important cross

disciplinary and global connections Its four parts address global rentier capitalism under the headings of historical lessons theoretical developments and empirical studies of rentierism in the Global North and South It will be the first book of its kind to offer a global account of rentier capitalism It will be of immense interest to readers in economics political economy sociology geography and development studies
