Psychology in Edgar Allan Poe Gerardo Del Guercio, 2019-08-20 This collection offers six critical essays on the topic of psychology in Edgar Allan Poe. It came together as a response to a visible absence of this subject in recent scholarship. The volume presents Edgar Allan Poe as one of the pioneers in psychology who often anticipated major theoretical trends and ideas in psychology in his incessant explorations of the relationship between behavior and the psyche. Scrutinizing serial killer narratives, obsessive narratives through Jungian unconscious, Lacanian *Das Ding*, *doppelgänger*, intersubjectivity, and the interrelationship between the material world and imaginative faculties, the essays reveal the richness and the complexity of Poe's work and its pertinence to contemporary culture. With contributions by Gerardo Del Guercio, Phillip Grayson, Sean J. Kelly, Rachel McCoppin, Tatiana Prorokova, and Karen J. Renner. *The Purpose Economy, Expanded and Updated* Aaron Hurst, 2016-10-11 In 2014 Aaron Hurst, Ashoka fellow and founder of Imperative and Taproot Foundation, published *The Purpose Economy*, the book that catalyzed the purpose revolution. With his prediction that purpose was the next major economic era, many are now racing to find answers and direction toward discovering their personal, professional, and organizational purpose. Leaders from around the world have embraced Hurst's work and have asked for more. In this expanded and updated edition, Hurst unpacks critical new research and tools for individuals and organizations to find purpose and thrive in this new era. Based on interviews with thousands of entrepreneurs, new survey-backed metrics, and refined societal trends, Hurst shows that this new era is fueling demand for purpose-centered professionals who not only create more satisfying careers but also contribute more productively to teams and organizations. A new view of success based on relationships, impact, and growth is spreading across the globe, and individuals and organizations that embrace that view have emerged as the leaders of the new economy.
