CURRENT VASCULAR SURGERY Mark K. Eskandari, 2015-12-31 Current Vascular Surgery addresses contemporary topics and controversies in vascular and endovascular surgery providing a comprehensive overview of the field's recent evolution. The volume is the result of the 40th Annual Vascular Symposium sponsored by the Division of Vascular Surgery, Feinberg School of Medicine, Northwestern University. The symposium was held in Chicago on December 10-14, 2015. The symposium was held at the InterContinental Hotel on Chicago's Magnificent Mile. The symposium brought together over 50 national experts to address timely topics and controversies in vascular and endovascular surgery. As has been the tradition, presentations cover the full spectrum of vascular surgery including changes in management of extracranial cerebrovascular disease, new treatment options for lower extremity arterial occlusive disease, hemodialysis improvements in techniques for complex venous disease, and developments in aortic stent graft repair in the chest and abdomen. Each chapter in this volume is based on a presentation, but the book chapters provide deeper, more detailed information than is possible in a symposium presentation. **Current State of Postural Research - Beyond Automatic Behavior** Emily Keshner, Joyce

Fung, 2020-01-16 **Walking-- for Health, Fitness and Sport** Bob Carlson, 1996 Walking for Health, Fitness and Sport offers comprehensive advice on all aspects of walking, guiding both beginners and active fitness walkers toward health and fitness improvement. It includes many helpful appendices such as loosening and flexibility exercises and a daily training log.

Update in Preventive Cardiology, An Issue of Medical Clinics of North America, E-Book Douglas S. Jacoby, 2022-03-03 In this issue of Medical Clinics of North America, guest editor Dr. Douglas S. Jacoby brings his considerable expertise to the topic of Update in Preventive Cardiology. Top experts in the field cover key topics such as how to manage patients with elevated triglycerides and when to refer biomarkers and advanced lipid testing, cardiovascular genetics, noninvasive imaging for the asymptomatic patient, selecting the best oral contraceptives and hormone replacement therapy for women, racial disparities in preventive cardiology, and more. Contains 15 relevant practice-oriented topics including the heart-healthy diet, the most evidence-based exercise strategies for men and women, pre-diabetes, obesity, and pharmacologic interventions to lower cardiovascular risk, who should be evaluated for secondary hypertension, what is the optimal LDL, and more. Provides in-depth clinical reviews on preventive cardiology, offering actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews. Walking Fitness Walking for Women
