Women's Activism Online and the Global Struggle for Social Change Carmit Wiesslitz, 2023-09-07 This book showcases the online activism of women's groups around the world in the post MeToo era and presents an overview of the diversity of its current expressions The focus of this book extends beyond campaigns against rape culture to include women's struggles on other political and environmental issues such as the campaign against the radical right wing in Austria Moreover the book's chapters highlight the genuine complexity of the efforts of women activists who are not only challenging the patriarchal order within male controlled digital platforms but are also challenging the hegemonic voices within the women's movements The book's case studies attest to the proliferation of digital campaigns aimed not only against discrimination of women but against discrimination based on their color age ethnicity and nationality The internet helps them to voice their agenda and strive for social change as well as to create both connective and collective identities

The Discursive-Digital Link Ehsan Dehghan, 2025-08-22 We are in a state of crisis Democracy is under threat authoritarian politics are on the rise and digital media once heralded as emancipatory technologies are increasingly implicated in democratic erosion The Discursive Digital Link offers a critical framework for understanding the entangled relationships between discourse digital media and the hidden dynamics behind antagonism and polarisation The Discursive Digital Link presents a fluid social ontology that theorises how discourses and digital communication technologies are inseparably entangled and how this entanglement contributes to the formation of complex hierarchical relations Drawing on discourse theory and new materialist perspectives Dehghan maps how the various components of the discursive digital link users collectives identities the medium's design underlying neoliberal capitalist logics and structural power dynamics together shape antagonistic frontiers in digital spaces Through detailed case studies across multiple digital media Dehghan demonstrates how these entanglements manifest through different articulatory logics that could transform societies towards either agonistic progress or disastrous polarisation By revealing the logics of discursive digital alliances and active passivity Dehghan provides critical insights for academics activists and anyone seeking to foster progressive togetherness The Discursive Digital Link offers a powerful theoretical framework and methodology for analysing digitally mediated communication It challenges monolithic understandings of polarisation technological solutionism and symptom focused approaches instead advocating for radical structural interventions across all entangled components of the discursive digital link a necessary shift in both academic research and progressive political strategy to address the democratic crises of our time

Myth, Meaning, and Antifragile Individualism Marc Champagne, 2020-02-11 Jordan Peterson has attracted a high level of attention Controversies may bring people into contact with Peterson's work but ideas are arguably what keep them there Focusing on those ideas this book explores Peterson's answers to perennial questions What is common to all humans regardless of their background Is complete knowledge ever possible What would constitute a meaningful life Why

have humans evolved the capacity for intelligence Should one treat others as individuals or as members of a group Is a single person powerless in the face of evil What is the relation between speech thought and action Why have religious myths and narratives figured so prominently in human history Are the hierarchies we find in society good or bad After devoting a chapter to each of these questions Champagne unites the different strands of Peterson's thinking in a handy summary Champagne then spends the remaining third of the book articulating his main critical concerns He argues that while building on tradition is inevitable and indeed desirable Peterson's individualist project is hindered by the non-revisable character and self-sacrificial content of religious belief This engaging multidisciplinary study is ideal for those who know little about Peterson's views or for those who are familiar but want to see more clearly how Peterson's views hang together The debates spearheaded by Peterson are in full swing so *Myth Meaning and Antifragile Individualism* should become a reference point for any serious engagement with Peterson's ideas

Youth Digital Health and Online Platforms Martyna

Gliniecka, 2024-12-27 *Youth Digital Health and Online Platforms* focuses on young people's use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth-led discourse of youth digital health different from the adult-led framing represented in youth digital health research policy and service delivery Peer-led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer-led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic-based theory originated by an early 20th-century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth-led youth digital health discourse formed in the peer-led space of Reddit This youth-led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio-material affordances creative practices and a plurality of youth voices Reddit's pseudonymous anti-authoritarian and egalitarian nature supports the emergence of this youth-led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence-based insights in their work with young people
