Proceedings of the International Conference on AI Research Carlos Goncalves, Jose Carlos Dias Rouco,
Computer Gaming World ,2004 **Artificial Intelligence and Data Science for Beginners** Bar, Ashton, Skip the lengthy textbook and learn the fundamentals behind Artificial Intelligence and Data Science in this book This manual is designed to provide a concise yet comprehensive overview of the key concepts behind these fields and their intersection If you re a beginner looking to get started this guide will equip you with the essential knowledge needed to understand and navigate the world of AI and data science You will even learn basic applied mathematical methods SQL programming and Python programming to get you started **Protecting Artificial Intelligence-generated Works in Indonesia** Laurensia Andrini, 2025-09-30 This book examines the legal challenges posed by generative artificial intelligence AI in copyright law focusing on Indonesia while using the European Union EU as a benchmark It explores whether AI generated works should qualify for copyright protection how rights over these works should be allocated and which stakeholders should be recognised in the process By addressing these critical issues the book provides a framework for balancing legal protection with public interests offering insights for policymakers legal scholars and intellectual property practitioners Adopting a comparative and socio legal approach this book analyses Indonesia s evolving copyright landscape alongside the EU s response to AI generated works While Indonesia prioritizes AI development its copyright law remains rooted in human authorship creating legal uncertainties for AI generated works despite the significant human contributions involved This book offers a novel perspective on how middle income countries can adapt their copyright systems in response to technological advancements To address the gap in existing copyright law potential protection models including sui generis

rights and neighbouring rights are examined These alternatives advocate for a balanced approach that fosters innovation while safeguarding human contributors Through the comparative analysis and policy driven recommendations the book is an essential resource for academics legal professionals and policymakers seeking to navigate the evolving intersection of AI and copyright law Laurensia Andrini is a Lecturer at the Business Law Department Faculty of Law of the Universitas Gadjah Mada in Yogyakarta Indonesia

Building Data Science Applications with FastAPI Francois Voron,2023-07-31 Learn all the features and best practices of FastAPI to build deploy and monitor powerful data science and AI apps like object detection or image generation Purchase of the print or Kindle book includes a free PDF eBook Key Features Uncover the secrets of FastAPI including async I O type hinting and dependency injection Learn to add authentication authorization and interaction with databases in a FastAPI backend Develop real world projects using pre trained AI models Book Description Building Data Science Applications with FastAPI is the go to resource for creating efficient and dependable data science API backends This second edition incorporates the latest Python and FastAPI advancements along with two new AI projects a real time object detection system and a text to image generation platform using Stable Diffusion The book starts with the basics of FastAPI and modern Python programming You ll grasp FastAPI s robust dependency injection system which facilitates seamless database communication authentication implementation and ML model integration As you progress you ll learn testing and deployment best practices guaranteeing high quality resilient applications Throughout the book you ll build data science applications using FastAPI with the help of projects covering common AI use cases such as object detection and text to image generation These hands on experiences will deepen your understanding of using FastAPI in real world scenarios By the end of this book you ll be well equipped to maintain design and monitor applications to meet the highest programming standards using FastAPI empowering you to create fast and reliable data science API backends with ease while keeping up with the latest advancements What you will learn Explore the basics of modern Python and async I O programming Get to grips with basic and advanced concepts of the FastAPI framework Deploy a performant and reliable web backend for a data science application Integrate common Python data science libraries into a web backend Integrate an object detection algorithm into a FastAPI backend Build a distributed text to image AI system with Stable Diffusion Add metrics and logging and learn how to monitor them Who this book is for This book is for data scientists and software developers interested in gaining knowledge of FastAPI and its ecosystem to build data science applications Basic knowledge of data science and machine learning concepts and how to apply them in Python is recommended
