**Digitale Schule - Was heute schon im Unterricht geht** Jöran Muuß-Merholz, 2019-08-15 Mit dem Internet können wir Schule Unterricht und Lernen nicht nur optimieren sondern in neuen Dimensionen denken Es geht nicht einfach nur um ein paar digitale Tools und Methoden Es geht um richtig guten fortschrittlichen Unterricht Das heißt Arbeiten in Projekten und an Produkten eigenständiges und personalisiertes Lernen Orientierung an Real World Aufgaben und an echten Kompetenzen Das Buch beschreibt solchen Unterricht nicht theoretisch sondern an zehn Beispielen aus der realen Praxis jenseits von Leuchtturm Schulen oder Pilotprojekten Jöran Muuß-Merholz porträtiert zehn Lehrerinnen und ihre Praxis klar und konkret anschaulich und ungeschönt Jöran Muuß-Merholz ist Diplom Pädagoge mit Schwerpunkt auf Fragen von digitalen Medien und Lernen Als Experte für diese Fragen war er bei ARD ZDF N3 3 Sat zu sehen Er schreibt Bücher und Fachartikel podcastet und twittert hält Vorträge und Workshops vor allem im deutschsprachigen Raum aber auch in Boston und Brno Cape Town und London Stockholm und Tokio Digital Media in Today's Classrooms Dawn Wilson, Katie Alaniz, Joshua Sikora, 2016-12-09 Educators who engage with today's students appreciate the impact digital media has on the lives of our younger generations Learners of today consume create and publish multimedia content continuously using a variety of devices such as cell phones tablets and computers They generate original and innovative products through programs apps and the Internet as a means of communicating and representing their lives ideas and feelings Unfortunately not all students understand how to apply media literacy or media safety and many lack knowledge of how to truly analyze media content for its value in society Today's educators must learn to harness the enthusiasm students have for digital media content that uses a combination of text images audio animation and video into daily lessons in order to enhance student interest engagement motivation and achievement in classroom environments This book addresses these vital considerations thereby empowering teachers and students to benefit from the application of digital media in their classrooms both as a compelling assessment tool and as an engaging teaching strategy **The Inclusive World of Today's Classrooms** Barbara Cozza, 2022-11-28 As school systems struggle to meet the needs of all learners this learning framework is the most effective way to structure schools The book is intended to assist educators at all levels of school organizations and give policymakers and parents information on an effective way to encourage learners to achieve on high levels The audience should read this book to gain ideas on how to improve school programs when accommodating the diversity of students found in classrooms This book integrates concepts focused on inclusivity social reform and second language learning strategies Technology and a multi age learning community framework are elements that transform a traditional school program into a powerful learning community for accommodating all learners to achieve on high levels Implementing an Inclusive Staffing Model for Today's Reference Services Julia K. Nims, Paula Storm, Robert Stevens, 2013-11-26 Reference service remains a core function of modern libraries However how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users

One way libraries can provide the on demand in person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff based reference model The authors staff members at Eastern Michigan University chose to address this by implementing an inclusive reference model in which staff and student assistants are trained to answer certain levels of reference questions while working at the reference desk and at other service points The result was that librarians became more available to work with students who needed in depth assistance and users were able to get simple questions answered throughout the library Similar training for all staff and student assistants who work in the library results in better service more accurate answers and improved interdepartmental communication In *Implementing an Inclusive Staffing Model for Today's Reference Services* they describe step by step how to transition from the traditional librarian staffed reference desk to an inclusive reference model where non MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked Users ask questions of staff at all service points not just at the Reference Desk It is vitally important that those who work at circulation periodicals maps archives and other public service points be trained in how to answer certain reference questions When this is accomplished users who have simple questions will not have to make useless treks to the Reference Desk Topics covered include Recognizing that nearly all staff answer reference questions but few are trained to do so documenting the necessity for a change in reference model gaining buy in from all interested parties librarians non MLS staff and administrators determining the optimal staffing level creating training materials and schedules monitoring the quality of reference service supervising staff evaluating the new model using multiple methods Additionally each chapter contains practical resources such as checklists forms and sample materials and other usable features to support readers as they implement the inclusive reference model The book describes in detail the process of transforming traditional reference into a model that transcends departmental and job title boundaries is focused on the user and allows librarians to better utilize their time and talents and include non professional staff in their reference services
