Focus On: 100 Most Popular Television Shows Set in New York City Wikipedia contributors, **Focus On: 100 Most Popular Television Series by Sony Pictures Television** Wikipedia contributors, **Social TV** Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries On March 15 2011 Donald Trump changed television forever The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real time reactions on Twitter generating more than 25 000 tweets and making the broadcast the most watched Roast in Comedy Central history The trumproast initiative personified the media and tech industries utopian vision for a multi screen and communal live TV experience In *Social TV Multi Screen Content and Ephemeral Culture* author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on demand streaming video Barker examines the rise and fall of Social TV across press coverage corporate documents and an array of digital ephemera He demonstrates that despite the talk of disruption the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy Case studies from broadcast networks to tech start ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period To trace these unfulfilled promises and flopped ideas Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing Yet in placing this now forgotten material in recent historical context Social TV shows how the era altered how the industry pursues audiences Multi screen campaigns have shifted away from a focus on live TV and toward all day content streams The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life **Amazon Journal** Geoffrey O'Connor, 1998 Peopled by a colorful cast of real life characters AMAZON JOURNAL is documentary filmmaker Geoffrey O Connor s critical look at how cultural differences in the Amazon have resulted in incidents ranging from comic misunderstandings to blatant exploitation environmental disaster and even genocide *Divine Programming* Charlotte E. Howell, 2020-03-02 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly significant to serial dramatic television Utilizing original case studies and interviews *Divine Programming* investigates the development writing producing marketing and positioning of key series including 7th Heaven Friday Night Lights Rectify Supernatural Jane the Virgin Daredevil and Preacher As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity

more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches establishment distancing displacement and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme

Future T/Issues Ruth Gehrmann, 2024-07-01 Transplant practices are discussed in the medical realm in fictional texts and in popular advertisement Yet how do these sectors intersect and influence each other How can the accounts of surgeons invested in transplant practice be brought into conversation with fictional voices Future T Issues positions transplantation at the intersection of natural science and the humanities and adds to the discussion of organ transplantation by focusing on one specific aspect that is commonly overlooked the idea of speculation By engaging with speculative fiction in conversation with life writing it contributes to a more thorough understanding of transplantation as a cultural practice showcasing that transplantation is imagined as part of the future both within and beyond the literary sphere Hereby this book establishes the relationship between literary and medical narratives as reciprocal in effect eroding boundaries between the life sciences and literary studies As an interdisciplinary endeavor this study contributes to literary studies specifically to the fields of life writing speculative fiction and young adult fiction it offers insights for the study of transplantation in the popular realm and adds to the medical humanities *Video Rating Guide for Libraries*, 1993

When Harry Became Sally Ryan T. Anderson, 2019-08-06 Can a boy be trapped in a girl's body Can modern medicine reassign sex Is our sex assigned to us in the first place What is the most loving response to a person experiencing a conflicted sense of gender What should our law say on matters of gender identity When Harry Became Sally provides thoughtful answers to questions arising from our transgender moment Drawing on the best insights from biology psychology and philosophy Ryan Anderson offers a nuanced view of human embodiment a balanced approach to public policy on gender identity and a sober assessment of the human costs of getting human nature wrong This book exposes the contrast between the media's sunny depiction of gender fluidity and the often sad reality of living with gender dysphoria It gives a voice to people who tried to transition by changing their bodies and found themselves no better off Especially troubling are the stories told by adults who were encouraged to transition as children but later regretted subjecting themselves to those drastic procedures As Anderson shows the most beneficial therapies focus on helping people accept themselves and live in harmony with their bodies This understanding is vital for parents with children in schools where counselors may steer a child toward transitioning behind their backs Everyone has something at stake in the controversies over transgender ideology when misguided antidiscrimination policies allow biological men into women's restrooms and penalize Americans who hold to
