

INTERMITTENT FASTING

A type of scheduled eating plan where you simply restrict your normal daily eating to a 6-8 hour window of time, without cutting calories.*

BENEFITS

INCREASES

- ◆ Insulin and leptin sensitivity, reducing the risk of chronic disease, from diabetes to heart disease and even cancer
- ◆ Ghrelin levels, also known as "the hunger hormone," to reduce overeating
- ◆ Ability to become "Fat Adapted", which increases your energy by burning stored fat

DECREASES

- ◆ Triglyceride levels, decreasing your risk of heart disease
- ◆ Inflammation and free radical damage
- ◆ Weight gain and metabolic disease risk

*If you're hypoglycemic, diabetic, or pregnant (and/or breastfeeding), you are better off avoiding any type of fasting or timed meal schedule until you've normalized your blood glucose and insulin levels, or weaned the baby. Other categories of people that would be best served to avoid fasting include those living with chronic stress, and those with cortisol dysregulation. of intermittent fasting so if you want to fast responsibly then you should find the type of fasting that suits you best For instance there is the 16 8 fasting where you fast for 16 hours and then eat your meals within the remaining 8 hours Then there is the alternate day fast where you fast on one day and eat normally the next You may also choose the extended fast where you fast for a longer period of time such as 8 days or more Traditional fasting has proven to be ineffective with many people unable to cope with the tough requirements Ordinarily people would fast from dawn to dusk for probably an entire month having to endure days on end without proper meals Then once the benefits of fasting are achieved they would resume normal life only for the problems to creep back again This can be very frustrating Fortunately intermittent fasting solves this challenge Rather than go through lengthy periods of fasting all you need to do is identify the most suitable intermittent type of fasting For instance you may choose the 16 8 format where you go for 16 hours without eating anything and only eat within an 8 hour window in any given day Fortunately the 16 hours of fasting include your sleeping time so you will be asleep for about half of that time Intermittent fasting has gained popularity because it offers choice is easy to handle and has a lot of benefits but without the rigors and disadvantages of traditional ways of fasting If you need to lose weight look great reduce inflammation boost your immunity or a myriad of other benefits then you should consider one of the various intermittent fasting methods Tags Fasting Intermittent Weight Loss Guide Your Muscle Diet Burn Lose Build Healthy intermittent fasting intermittent fasting books intermittent fasting for women intermittent fasting diet intermittent fasting and ketogenic diet intermittent fasting 101 intermittent fasting free kindle books intermittent fasting for men intermittent fasting and keto diet intermittent fasting and keto intermittent fasting and cancer intermittent fasting and carb cycling intermittent fasting and diabetes intermittent fasting and feasting intermittent fasting and paleo intermittent fasting books for men how to lose weight fast 5 2 diet weight loss diet diet plan for weight loss 16 8 diet what is intermittent fasting fasting for weight loss diet plan to lose weight fast fat loss diet benefits of fasting ways to lose weight intermittent fasting benefits intermittent fasting results best diet to lose weight diets to lose weight fast intermittent fasting weight loss alternate day fasting five two diet 5 and 2 diet does intermittent fasting work best diet plan to lose weight fast how to do intermittent fasting diet meal plan to lose weight 5 2 diet plan health benefits of intermittent fasting what to eat when intermittent fasting lose fat fast fasting and weight loss healthy dinner for weight loss intermittent fasting studies how to do fasting nutrition plan for weight loss 24 hour fast fasting for a week fasting every other day the 5 2 diet best weight loss meal plan intermittent fasting app 5 2 diet meals weight loss food plan meal plan to lose weight fast fast meals how to intermittent fast fruits good for diet healthy food recipes to lose weight eating healthy to lose weight good weight loss foods fasting tips 5 2 diet weight loss weight loss help fast 5 diet weight loss guide 28 day egg ayuno intermitente dieta intermitente de ayuno intermittierende Fasten intermittierende Fastendi t digiuno intermitente dieta a digiuno intermitente je ne intermittent r gime jeun intermittent jejum
