Britain. Parliament. House of Commons. Communities and Local Government Committee,2009 In this report the Communities
and Local Government Committee says the Government must stick to its long term house building targets despite the credit
crunch but a greater proportion of the homes built should be social housing The Committee is concerned that the 975 million
borrowed by the Government from its 2010 11 budgets to build social rented housing now is not new money and that the
Government has been unable to say how that borrowing will be replaced The Committee urges the Department for
Communities and Local Government to put pressure on the Treasury to ensure measures to revive the mortgage markets are
implemented immediately increase construction of new social housing both to provide for housing need and as a means of
maintaining capacity in the homebuilding industry whilst the market recovers accelerate refurbishment programmes for
social housing acquire further social housing through the purchase of unsold stock and street properties consider the
purchase of unsold family homes which have been on the market for more than a year encourage public sector bodies to
make land available for the development of new homes The report also urges the Government to do more to help those at risk
of repossession by considering sanctions against lenders who repossess too quickly and by doing more to protect tenants and
homeowners from unscrupulous landlords An Office of Fair Trading recommendation for sale and rent back schemes should
be implemented as a matter of urgency to protect the growing number of households falling behind in mortgage payments
The Committee would like to see more done to support housing associations including increasing social housing grant where
