Predicting Financial Crises: The Role of Asset Prices Tristan Hennig, Mr. Plamen K Iossifov, Plamen Iossifov, Mr. Richard Varghese, 2023-08-04 We explore the early warning properties of a composite indicator which summarizes signals from a range of asset price growth and asset price volatility indicators to capture mispricing of risk in asset markets Using a quarterly panel of 108 advanced and emerging economies over 1995-2017 we show that the combination of rapid asset price growth and low asset price volatility is a good predictor of future financial crises Elevated levels of our indicator significantly increase the probability of entering a crisis within the next three years relative to normal times when the indicator is not elevated The indicator outperforms credit based early warning metrics a result robust to prediction horizons methodological choices and income groups Our results are consistent with the idea that measures based on asset prices can offer critical information about systemic risk levels to policymakers

Movie Analytics Dominique Haughton, Mark-David McLaughlin, Kevin Mentzer, Changan Zhang, 2015-10-05 Movies will never be the same after you learn how to analyze movie data including key data mining text mining and social network analytics concepts These techniques may then be used in endless other contexts In the movie application this topic opens a lively discussion on the current developments in big data from a data science perspective This book is geared to applied researchers and practitioners and is meant to be practical The reader will take a hands on approach running text mining and social network analyses with software packages covered in the book These include R SAS Knime Pajek and Gephi The nitty gritty of how to build datasets needed for the various analyses will be discussed as well This includes how to extract suitable Twitter data and create a co starring network from the IMDB database given memory constraints The authors also guide the reader through an analysis of movie attendance data via a realistic dataset from France
