Education Scholarship in Healthcare April S. Fitzgerald, Gundula Bosch, 2023-11-28 Academic medical centers continue to require evidence of scholarly activity for their faculty to maintain their appointment and to advance in promotion rank For some training to know how to obtain evidence of scholarship was obtained through fellowship where information was passed from mentor to mentee in an apprenticeship fashion without a formalized text to follow to obtain the information In fellowship information might flow through word of mouth or articles handed down out to a mentee Others in fellowship develop skills by taking classes as part of an additional master s degree program such as a Master of Public Health For health professionals who enter an academic institution without having gone through a fellowship program they are still expected to perform scholarly activity but don t have the benefit of having done the apprenticeship to learn the skills so unless they decide to find a course obtain a master s degree or find a fellowship they have no way to gain the necessary skills and are at risk of losing their appointment and have no hope of progressing in promotion This text provides a comprehensive toolbox for the academic who needs these skills to survive It serves as a valuable resource for health professionals physicians nurses pharmacists physical therapists and allied professionals as well as scientists and students with the steps necessary to take their educational endeavors from idea to implementation through dissemination Beginning with the concept of What is Scholarship the authors walk the reader through the concepts of how to find your niche look through the literature to check for a gap design a question consider evaluation and outcomes be aware of ethical considerations plan a project look for support find mentorship prepare an abstract present a poster disseminate a project and lead a team All chapters are written by experts in the subject matter

Foundation Grants to Individuals Phyllis Edelson, 2009 *Introduction to Scholarship in Modern Languages and Literatures* David G. Nicholls, 2015-01-01 The third edition of the MLA s widely used *Introduction to Scholarship in Modern Languages and Literatures* features sixteen new essays by leading scholars Designed to highlight relations among languages and forms of discourse the volume is organized into three sections Understanding Language provides an overview of the field of linguistics with special attention to language acquisition and the social life of languages Forming Texts offers tools for

understanding how speakers and writers shape language it examines scholarship in the distinct but interrelated fields of rhetoric composition and poetics Reading Literature and Culture continues the work of the first two sections by introducing major areas of critical study The nine essays in this section cover textual and historical scholarship interpretation comparative cultural and translation studies and the interdisciplinary topics of gender sexuality race and migrations among others As in previous volumes an epilogue examines the role of the scholar in contemporary society Each essay discusses the significance underlying assumptions and limits of an important field of inquiry traces the historical development of its subject introduces key terms outlines modes of research now being pursued postulates future developments and provides a list of suggestions for further reading This book will interest any member of the academic community seeking a review of recent scholarship while it provides an indispensable resource for undergraduate and graduate students of modern languages and literatures
