New Book to Read in 2020 Social Media Marketing category FINALIST Business Book Awards 2020 International Business Book category Social networks are the new norm and traditional marketing is failing in today's digital always on culture. Businesses across the world are having to face up to how they remain relevant in the choppy waters of the digital ocean. In an era where a YouTube star gets more daily impressions than Nike, Coca Cola, and Walmart combined, traditional marketing as we know it is dead. *The End of Marketing* revolutionizes the way brands, agencies, and marketers should approach marketing. From how Donald Trump won the American presidency using social media and why Kim Kardashian is one of the world's biggest online brands, through to the impact of bots and automation, this book will teach you about new features and emerging platforms that will engage customers and employees. Discover bold content ideas, hear from some of the world's largest brands and content creators, and find out how to build smarter paid strategies guaranteed to help you dominate your markets. *The End of Marketing* explains that no matter how easy it is to reach potential customers, the key relationship between brand and consumer still needs the human touch. Learn how to put social back into social media and claim brand relevancy in a world where algorithms dominate, organic reach is dwindling, and consumers don't want to be sold to; they want to be engaged.

The Happiness Effect Donna Freitas, 2017-01-02

Sexting, Cyberbullying, Narcissism. Social media has become the dominant force in young people's lives, and each day seems to bring another shocking tale of private pictures getting into the wrong hands or a lament that young people feel compelled to share their each and every thought with the entire world. Have smartphones and social media created a generation of self-obsessed egomaniacs? Absolutely not, Donna Freitas argues in this provocative book. And she says these alarmist fears are drawing attention away from the real issues that young adults are facing. Drawing on a large-scale survey and interviews with students on thirteen college campuses, Freitas finds that what young people are overwhelmingly concerned with, what they really want to talk about, is happiness. They face enormous pressure to look perfect online, not just happy but blissful, ecstatic, and fabulously successful. Unable to achieve this impossible standard, they are anxious about letting the less-than-perfect parts of themselves become public. Far from wanting to share everything, they are brutally selective when it comes to curating their personal profiles and worry obsessively that they might unwittingly post something that could come back to haunt them later in life. Through candid conversations with young people from diverse backgrounds, Freitas reveals how even the most well-adjusted individuals can be stricken by self-doubt when they compare their experiences with the vast collective utopia that they see online. And sometimes, as on anonymous platforms like Yik Yak, what they see instead is a depressing cesspool of racism and misogyny. Yet young people are also extremely attached to their smartphones and apps, which sometimes bring them great pleasure. It is very much a love-hate relationship. While much of the public's attention has been focused on headline-grabbing stories, the everyday struggles and joys of young people have remained under the radar. Freitas brings their feelings to the fore in the words of young people themselves. *The Happiness Effect* is an eye-opening window into their first-hand experiences of social

media and its impact on them *Urban Ghana and Privacy in the Digital Age* Elad Ben Elul, 2022-04-20 This book explores privacy practices and the role of digital technologies in the lives of urban Ghanaians considering how they use language materiality and culture to maintain sharp boundaries between the private and public Focusing on the harbour town of Tema it offers rich ethnographic portraits that cover topics such as nightlife domestic architecture religion and social media The volume demonstrates how transformations across Africa such as Pentecostal reformation neoliberal reforms and rapid digitisation all raise the need for privacy among middle class urbanites who use brand new and very traditional strategies to uphold an image of their economic or religious state Overall the book highlights how digital technologies intertwine with local cultures and histories and how digital anthropology enhances our understanding of the offline as much as the online It makes a valuable contribution to discourse about the right for privacy and surveillance in the digital age and will be of interest to scholars from anthropology and African studies The 3 Ms of Fearless Digital Parenting Carrie

WTF? Tim O'Reilly, 2017-10-10 Can we master the technologies we create before they master us A punchy and provocative assessment by one of Silicon Valley's sharpest observers Financial Times

WTF can be an expression of amazement or of dismay and today's technology elicits both reactions In this book Tim O'Reilly dubbed the Oracle of Silicon Valley by Inc magazine explores the upsides and potential downsides of today's WTF technologies What is the future when an increasing number of jobs can be performed by intelligent machines instead of people or done only by people in partnership with those machines What happens to our consumer based societies to workers and the companies that depend on their purchasing power Is income inequality and unemployment an inevitable consequence of technological advancement or are there paths to a better future What will happen to business when technology enabled networks and marketplaces are better at deploying talent than traditional companies How should companies organize themselves to take advantage of these new tools What's the future of education when on demand learning outperforms traditional institutions How can individuals adapt and retrain Will the fundamental social safety nets of the developed world survive the transition and if not what will replace them O'Reilly is the man who can really can make a whole industry happen according to former Google CEO Eric Schmidt and for decades he's identified and helped shape our response to emerging technologies with world shaking potential from the World Wide Web to Big Data and AI Here he shares the techniques he's used at O'Reilly Media to anticipate innovation waves and provides a framework for thinking about how current innovations are changing the nature of business education government financial markets and the economy as a whole He helps us understand how the parts of digital businesses work together to create marketplace advantage and customer value and why ultimately they cannot succeed unless their ecosystem succeeds along with them O'Reilly exhorts businesses to DO MORE with technology rather than just using it to cut costs and enrich their shareholders Robots are going to take our jobs they say O'Reilly replies Only if that's what we ask them to do Technology is the solution to human problems and we won't run out of work till we run out of problems Whether technology brings the WTF of wonder or the WTF of dismay isn't inevitable It's up to us A compelling narrative of how technology interweaves with the real world If it can cajole even a few tech titans to dwell on the social and political impact of what they do then it will have served a useful purpose Financial Times

WTF is a book about technology as it was as it is and as it could be It is told from the perspective of someone who has been personally present at the most important moments in the fast paced history of tech and who played a significant role in those moments Please do read this book Cory Doctorow Boing Boing
