Effortless Greg McKeown, 2021-04-27 In a world beset by burnout Greg McKeown's work is essential Daniel H Pink Effortless shows that achieving more doesn't have to be as hard as we make it out to be Arianna Huffington NEW YORK TIMES BESTSELLER A Times UK Best Book of the Year From the author of the million copy selling Essentialism comes an empowering guide to achieving your goals It all starts with a simple principle Not everything has to be so hard The intricacy of modern life has created a false dichotomy between things that are hard and important and those that are easy and trivial Everything has become so much harder than it ought to be But Greg McKeown bestselling author of Essentialism says there is a third alternative In Effortless he offers practical tools for making the most essential activities the easiest ones so you can achieve the results you want without burning out Honed over the better part of a decade these strategies include Turning tedious tasks into enjoyable rituals Preventing frustration by solving problems before they arise Setting a sustainable pace instead of powering through Making one time choices that eliminate many future decisions Making relationships easier to maintain and manage And much more McKeown's philosophy of essentialism has helped thousands to recognise that the effortless way isn't the lazy way It's the smart way Not every hard thing in life can be made easy but we can make it easier to do more of what matters most Effortless will show you how

The Short Writings of Nelson Algren Richard F. Bales, 2022-09-15 Nelson Algren was a renowned Chicago writer known for his social commentary and his novels like The Man with the Golden Arm and A Walk on the Wild Side Although he continues to be remembered almost exclusively for his novels this book aims to highlight the value and influence of his short form works Before he died in 1981 Algren had amassed a genre defying body of work including short stories articles poems and book reviews The present book features a comprehensive analysis and discussion of Algren's lost literature including everything but his novels One of the pieces covered is a masterpiece of race relations written in 1950 more than 60 years before the galvanization of the Black Lives Matter movement Another is a scathing poem about Algren's transatlantic love affair with Simone de Beauvoir Both items are reprinted in the book courtesy of the Algren estate This book also includes references to Algren's works that have yet to be studied by Algren scholars

Masterplots, Five Hundred Plot-stories and Essay-reviews from the World's Fine Literature Frank Northern Magill, Dayton Kohler, 1960 Neuromyths Tracey Tokuhama-Espinosa, 2018-09-25 A guide to the science behind the art of teaching Not every teaching method touted as brain friendly is supported by research findings and misconceptions about the brain have the capacity to harm rather than help In her new book Tracey Tokuhama Espinosa untangles scientific fact from pedagogical fiction debunking dozens of widely held beliefs about the brain that have made their way into the education literature In ten

central chapters on topics ranging from brain structure to classroom environments the text traces the origins of common neuromyths from categorizing individuals as right brained or left brained to prevailing beliefs about multitasking or the effects of video games and corrects the record with the most current state of knowledge Rather than offering pat strategies Tokuhama Espinosa challenges teachers curious about the brain to become learning scientists and supplies the tools needed to evaluate research and put it to use in the classroom
