Planning Futures New Directions For Planning Theory:

Planning Futures Philip Allmendinger, Mark Tewdwr-Jones, 2002 This text explores the future directions of planning theory in all its contemporary manifestations analysing how new perspectives can assist in understanding the challenges the state faces in regulating land use for the future

Critical Planning Futures Philip Allmendinger, Mark Tewdwr-Jones, Matthew Wargent, 2025-05-27 Planning lies at the heart of successful and sustainable places yet planning scholarship often appears stuck in routinised patterns of thought Critical Planning Futures brings together an international range of voices from diverse disciplinary backgrounds to explore new directions in planning theory interrogate planning's orthodoxy and push the boundaries of contemporary theory using ideas both from within planning and beyond Contributors draw on examples from across the globe considering the applicability of concepts and theories across traditional divides In this way Critical Planning Futures continues planning's rich tradition of borrowing ideas from elsewhere and using those ideas to shine a light back onto well rehearsed theoretical debates to set out new ways forward for planning in the twenty first century This book will be a vital resource for planning specialists though the breadth of ideas will be of interest to academics and researchers in a wide range of disciplines including urban studies geography political science and sociology

Schlüsselwerke der Stadtforschung Frank Eckardt, 2016-08-22 Mit diesem Band sollen wichtige Texte der Stadtforschung einem breiten Publikum vorgestellt werden das sich für heutige und zukünftige Fragen der Stadtentwicklung interessiert Es werden vor allem Texte aus den Sozial und Kulturwissenschaften vorgestellt die in den letzten zwei Jahrzehnten in den stadtbezogenen Diskursen eine große Rolle gespielt haben und die unser Denken über die Stadt maßgeblich beeinflusst haben Die Schlüsselwerke der Stadtforschung ermöglichen den Lesern einen Einblick in die verschiedenen Themen theoretischen Ansätze und Forschungskontroversen die in der aktuellen Diskussion um das Leben in der Stadt wichtig erscheinen Damit soll somit sowohl der professionellen Auseinandersetzung als auch der interessierten Öffentlichkeit insgesamt ein transdisziplinärer Einblick in die Komplexität der urbanen Gesellschaft ermöglicht werden

Strategische Regionalplanung Dirk Vallée, 2012 Abstract Der Hauptanspruch der Strategischen Regionalplanung besteht darin Orientierung zu vermitteln und eine langfristige Ausrichtung der Regionalentwicklung zu bewirken Ein erfolgreicher Planungsprozess bedarf deswegen mehr denn je einer neuen und intensiven Verzahnung von Leitbildern Zielen Konzepten Plänen und daran orientierten Schritten zu deren Umsetzung Strategische Regionalplanung als dreistufiger eng verzahnter Planungsprozess stützt sich dabei auf die Bildung von Netzwerken umfassende Partizipation die frühzeitige Schaffung strategischer Partnerschaften Allianzen sowie die Unterstützung der Akteure bei der Umsetzung der Konzepte Pläne und Programme Grundlage für die Vielzahl der Aktivitäten sind kontinuierliches Monitoring und Controlling Mit dieser Thematik hat sich eine interdisziplinäre Arbeitsgruppe von Wissenschaftlern und Praktikern beschäftigt Auf der Basis einer Auswertung nationaler und internationaler Fallbeispiele legt

sie mit diesem Band grundlegende **Strategieorientierte Planung im kooperativen Staat** Alexander Hamedinger, Oliver Frey, Jens S. Dangschat, Andrea Breitfuss, 2009-07-25 Strategieorientierte Planung erlebt seit den 1990er Jahren eine Wiedergeburt Die Entwicklung und Umsetzung umfassender strategischer Planungsdokumente und Leitbilder ist vor dem Hintergrund des gegenwärtigen sozialen und ökonomischen Wandels sowie im Zusammenhang mit dem Wandel von Staatlichkeit zu sehen welcher sich im Konzept des kooperativen Staates ausdrückt Das Buch widmet sich zwei zentralen Fragestellungen einerseits wird nach der Einbettung der verschiedenen Ansätze strategieorientierter Planung in den planungstheoretischen Diskurs andererseits nach der Rolle strategieorientierter Planung im Wandel des Steuerungsverständnisses auf lokaler und regionaler Ebene gefragt Das der strategieorientierten Planung zugrundeliegende Planungsverständnis beinhaltet die Vorstellung von Planung als sozialem Prozess sowie als Instrument zur Aushandlung und Vermittlung zwischen widersprüchlichen Interessen *Land-Use Management to Support Sustainable Settlements in South Africa* Verna Nel, Stuart Paul Denoon-Stevens, 2023-10-24 This book provides a theoretical and practical foundation needed to change the practice of land use management in Southern Africa It presents an overview of alternative land use management system for South African municipalities that is economically socially and environmentally more sustainable than many of the land use schemes in effect at present Land use management is a component of spatial governance that controls the nature and extent of development to prevent harmful impacts on people and the environment As the current system with its colonial modernist planning and regulatory mechanisms were never designed to deal with rapid change urbanisation and informality a different form of land development and land use management is necessary This timely book reflects the culmination of many years of practical experience and research into various aspects of land use management by the authors and studies undertaken by their master's and doctoral students The book goes beyond an analysis of the problems and suggests concrete proposals that can be applied throughout Southern Africa based on a rural to urban transect This book is directed to a broad range of readers interested in spatial planning and land use management It will be of interest to those in the fields of geography urban studies urban design planning and architecture Outsourcing Planning Jantine Grijzen, 2010 This thesis addresses the wide involvement of consultants in regional spatial planning projects in the Netherlands Although consultants have become important actors in public policy making and media and politics have frequently addressed this as a problem until now the scientific literature has paid little attention to them This thesis shows that the wide involvement of consultants can best be explained from the perspective of increasing problems of coordination and cooperation in Dutch regional spatial planning Planning has become an activity performed by many governments and stakeholders together with overlapping policies expertise and procedures From an external position consultants can act as intermediaries between interdependent actors both by mediating between personal relations as well as by connecting substantive issues Hiring consultants however is also a sign of emptying out governments when governments outsource core tasks like policy articulation and cooperation

with other governments they can lose the capability to develop high quality and democratic plans in a complex and interdependent world

Green Utopianism Karin Bradley, Johan Hedrén, 2014-03-21 Utopian thought and experimental approaches to societal organization have been rare in the last decades of planning and politics. Instead there is a widespread belief in ecological modernization that sustainable societies can be created within the frame of the current global capitalist world order by taking small steps such as eco labeling urban densification and recycling. However in the context of the current crisis in which resource depletion, climate change, uneven development and economic instability are seen as interlinked, this belief is increasingly being questioned and alternative developmental paths sought. This collection demonstrates how utopian thought can be used in a contemporary context as critique and in exploring desired futures. The book includes theoretical perspectives on changing global socio environmental relationships and political struggles for alternative development paths and analyzes micro level practices in co housing, alternative energy provision, use of green space, transportation, co production of urban space, peer to peer production and consumption and alternative economies. It contributes research perspectives on contemporary green utopian practices and strategies combining theoretical and empirical analyses to spark discussions of possible futures.

Thematic Encyclopedia of Regional Science Peter Nijkamp, Karima Kourtit, Kingsley E. Haynes, Zeynep Elburz, 2025-08-11 This thematic Encyclopedia explores the multifaceted world of regional science presenting a systematic and coherent overview of its central topics. It highlights the interdisciplinary nature of the field examining the wide range of concepts, theories, methods and models that shape spatial oriented approaches to the social sciences.

Environment and Planning, 2006 Journal of urban planning and design. Publishes research in the application of formal methods, methods, models and theories to spatial problems involving the built environment and the spatial structure of cities and regions. Includes the application of computers to planning and design in particular the use of shape grammars, artificial intelligence and morphological methods to buildings and towns, the use of multimedia and GIS in urban and regional planning and the development of ideas concerning the virtual city.

Theorien in der Raum- und Stadtforschung Jürgen Oßenbrügge, Anne Vogelpohl, 2014 Ausgehend von dem zunehmenden Interesse in der Forschung zu Stadt und Raum. Problemstellungen stärker konzeptionell zu fassen und Fallstudien theoriegeleitet aufzuschlüsseln, bietet der Sammelband einen Einstieg in Konzepte, Theorien und Begriffe der Raum und Stadtforschung. Er richtet sich an fortgeschrittene Studierende ebenso wie an Wissenschaftlerinnen und Wissenschaftler aus der interdisziplinären Raum und Stadtforschung.
