Plantation South:

The Cotton Plantation South since the Civil War Charles S. Aiken, 2020-03-24 Winner of the J B Jackson Prize from the Association of American Geographers Originally published in 1998 The plantation writes Charles Aiken is among the most misunderstood institutions of American history The demise of the plantation has been pronounced many times but the large industrial farms survive as significant parts of not just the South's but the nation's agriculture In this sweeping historical and geographical account Aiken traces the development of the Southern cotton plantation since the Civil War from the emergence of tenancy after 1865 through its decline during the Depression to the post World War Two development of the large industrial farm Tracing the geographical changes in plantation agriculture and the plantation regions after 1865 Aiken shows how the altered landscape of the South has led many to the false conclusion that the plantation has vanished In fact he explains while certain regions of the South have reverted to other uses the cotton plantation survives in a form that is in many ways remarkably similar to that of its antebellum predecessors Aiken also describes the evolving relationship of African Americans to the cotton plantation during the thirteen decades of economic social and political changes from Reconstruction through the War on Poverty including the impact of alterations in plantation agriculture and the mass migration of Southern blacks to the urban North during the twentieth century Richly illustrated with more than 130 maps and photographs many original and many from FSA photographers The Cotton Plantation South is a vivid and colorful account of landscape geography race politics and civil rights as they relate to one of America's most enduring and familiar institutions

Lost Plantations of the South Marc R. Matrana, 2009-01-01 The great majority of the South's plantation homes have been destroyed over time and many have long been forgotten In *Lost Plantations of the South* Marc R Matrana weaves together photographs diaries and letters architectural renderings and other rare documents to tell the story of sixty of these vanquished estates and the people who once called them home From plantations that were destroyed by natural disaster such as Alabama's Forks of Cypress to those that were intentionally demolished such as Seven Oaks in Louisiana and Mount Brilliant in Kentucky Matrana resurrects these lost mansions Including plantations throughout the South as well as border states Matrana carefully tracks the histories of each from the earliest days of construction to the often contentious struggles to preserve these irreplaceable historic treasures *Lost Plantations of the South* explores the root causes of demise and provides understanding and insight on how lessons learned in these sad losses can help prevent future preservation crises Capturing the voices of masters and mistresses alongside those of slaves and featuring more than one hundred elegant archival illustrations this book explores the powerful and complex histories of these cardinal homes across the South
