Malcolm David Evans

Plateau Journal Law Order:

Dynamics of Plural Legal Orders Franz von Benda-Beckmann, Keebet von Benda-Beckmann, 2006 This volume examines dynamics of legal pluralism and explores the varied ways in which constellations of legal pluralism play out in social life It aims to bridge the social and theoretical space between small scale case studies and abstract generalization The introduction provides an overview of developments in the field of legal pluralism and offers an analytical perspective on the dynamics of the maintenance of and change in constellations of legal pluralism Contributions examine situations in which the state is seen as remote from local settings and others in which local populations are actively engaged in widening the scope and validity of state law By focusing on historical developments and the fault lines of rapid political change in both post socialist and post authoritarian states the volume shows that legal legacies of the past continue to have an impact Authors look at the social significance of the various and sometimes competing types of law which religious and secular transnational actors introduce into local settings Franz and Keebet Benda Beckmann are both Head of Project Group for the Project Group Legal Pluralism at the Max Planck Institute for Social Anthropology Halle Germany Case Law on Equitable Maritime Delimitation / Jurisprudence sur les délimitations maritimes selon l'équité Robert Kolb, 2021-10-25 This book provides a complete overview of the jurisprudence on maritime delimitation Each case is presented under a series of identical headings so as simultaneously to provide the reader with a complete analysis of the individual case and a uniform measure of comparison with other cases The headings are as follows geographical context submissions and arguments of the parties specific features of the case the judgement broken down into its various elements individual and dissenting opinions and academic comment together with a bibliography The longest section on each case is that devoted to the judgement The analysis of each relevant element the role of third States equity equidistance the displacement of a provisional line islands proportionality etc is presented in three ways 1 a brief introductory part introducing and offering a critique of the essential features of the relevant part of the decision 2 relevant extracts from the judgement 3 commentaries either brief or more developed according to the needs of the case that endeavour to bring out the substance of the judgement in particular by drawing out the various consequences making connections with previous and future cases so as to chart the development of the jurisprudence and offering critical reflections The book thus presents a complete panorama of the jurisprudential problems associated with maritime delimitation The clarity and comprehensive nature of the presentation and the quality of the commentaries makes it an indispensable reference work for academics and for practitioners alike **Yearbook International Tribunal for the Law of the Sea / Annuaire Tribunal international du droit de la mer, Volume 23 (2019)** ITLOS, 2020-10-12 The ITLOS Yearbook 2019 provides information on the composition jurisdiction procedure and organization of the Tribunal and reports on its judicial activities in 2019 in particular concerning Cases No 25 26 and 27 The Yearbook is prepared by the Registry of the Tribunal Le TIDM Annuaire 2019 fournit des informations essentielles concernant la composition la compétence la procédure
