## Planet Of The Dragons:

**The Last Dragon on Mars** Scott Reintgen,2025-02-06 HE WASN T MEANT TO BE THE HERO BUT HE WAS CHOSEN BY THE DRAGON A fantastic new take on dragons readers are in for a thrilling ride A F Steadman author of the Skandar series For Lunar and his crew of fellow orphans every day on Mars is a fight for survival They scavenge for scraps in a wasteland ravaged by wars and storms hoping they ll have enough to eat Like most kids Lunar knows the legends about dragons How there s one for every planet every moon and every star But no dragon is coming to rescue them Until one day a scavenging mission goes dangerously wrong forcing Lunar to hide underground There he finds the only hope left for a dying planet the last dragon And when the dragon won t let him go it becomes alarmingly clear LUNAR JONES HAS BEEN CHOSEN TO SAVE MARS      *The Dragon Girl: the Beginning.* Steven Wood,2011-02-24 This is a story about a teenage girl that moves to a new town after leaving her old one where she was well known but not knowing the danger that lurked in the future She has a strange dream which becomes true where she meets someone that is to help her along the way while also going to school too She has to go through the school year making new friends and taking the team to the top while defending and learning this new power that she receives from the new person But the person she meets is not what u think but a dragon like human that is here to keep the world safe from any harm they have become part of life and blending in with humans This teenage girl name is Crystal and she has to become one of these things and take out the ones that want to do harm to the humans and she will learn more things as she continues on her journey through high school and even into college She has to change her present in order to save the future from total destruction of the evil that is to come and meet new dragons and old ones along the way to help her out Will she succeed in doing so and save the world or will she fail you will have to find out in the next books to come      **Telefantasy** Catherine Johnson,2005-08-26 No Marketing Blurb      *Celestial Wisdom* Rae Chandran,2020-11-06 The Family of God We wish to bring forth new understandings to support you in these changing times To achieve what you want from your day when you wake up in the morning call forth all supportive energies available to you There are many supportive energies and when you call them forth they will flock to you Do not focus on the challenges but rather on the results you want You should acknowledge and observe your body when you wake up Your body is a finely tuned instrument that carries billions of cells It has tremendous wisdom and consciousness Each of your organs along with the muscles tissues blood bones skin hair nails and teeth contains energy karmic as well as deep wisdom Observe the body Then communicate with it to open its inherent wisdom and these energies will support you throughout your day in a much more aware state When you create a friendship with your body it will support you with solutions to the problems you seek to resolve in your daily life Your body is the greatest friend you can have Spirit of Success There are pockets in your body and auric fields that contain codes and embedded energies that when awakened will give you the essence and the power to create what you desire These codes and embedded energies are in everybody and you must awaken to this truth

within you so that as you grow spiritually you are also able to create abundantly in your material life Peacocks What I observe in your earthly world is that human beings have great difficulty accepting themselves They always want to be someone else or like someone else It s time to be still and consider Why do I think this way What drives me to want to be like someone else I have observed that many human beings do not accept their physical bodies Some go to great lengths to modify them Everyone has inner beauty for all of you were built with that It is only a matter of finding it When you see a beautiful flower sunset or rainbow you often feel joy or splendor in your heart Where did that appreciation for beauty come in It was always there You focused on it and you found it How about focusing on your inner beauty every moment of the day and night That could become your reality What you focus on is what you create When you are in that space not only will you see beauty everywhere but you will also draw forth beautiful experiences through the law of attraction Know in your hearts that you are all magnificent in the eyes of the Creator There is no judgment other than the judgment you pass on yourselves You often accept the judgment of others as truth In these powerful times you must consciously work on getting rid of false belief systems that keep you prisoners in your own minds

*Orogenies of Light* Richard Leviton,2019-10-29 ONE DAY IN 2084 EARTH S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET AS 85 000 DOMED CANOPIES OF LIGHT FROM THE STARS The story of this return is told by Blaise a well informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet It s a chronicle of his last field assignment a unique career retrospective and a firsthand account of the momentous return of the domes These are giant half spheres of Light that originally helped create the biosphere and were the Earth s first mountains They generated the Earth s sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light The domes arrived all at once and started to reorganize the global landscape It was their fourth visit and it would be several perilous years as the planet adjusts to it Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet Problems are rife the revolt of Pan and the Nature Spirits the continuing dark interference by humanity s ghostly forebears the resurgence of Babylon and its imperious agenda and the planet s dangerous drift towards becoming flattened like a hockey puck But the opportunities are fabulous too as the planet enters an era of unceasing Light and beatific conditions The return of the domes lays bare the true history of the Earth how it diminished from perfection the benign superintendents of this bold experiment and who its earliest inhabitants were and the massive problems they created which still affect us today It is a genuinely apocalyptic moment as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny
